Notes to Consolidated Financial Statements  
(Unaudited)

1. Basis of Presentation and Nature of Business

Basis of Presentation

The unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the unaudited consolidated financial statements have been prepared on the same basis as the annual financial statements and reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the financial position as of June 30, 2017 and the results of operations and cash flows for the period ended June 30, 2017 and 2016. The financial data and other information disclosed in these notes to the interim financial statements related to these periods are unaudited. The results for the three and six months ended June 30, 2017 are not necessarily indicative of the results to be expected for any subsequent periods or for the entire year ending December 31, 2017. The balance sheet at December 31, 2016 has been derived from the audited financial statements at that date.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to the Securities and Exchange Commission's rules and regulations. These unaudited consolidated financial statements should be read in conjunction with our audited financial statements and notes thereto for the year ended December 31, 2016 as included in our Annual Report on form 10-K.

Nature of Business

Newgioco Group, Inc. ("Newgioco Group" or "the Company") was incorporated in the state of Delaware on August 26, 1998 as Pender International Inc. On September 30, 2005, the Company changed its name to Empire Global Corp., and on July 20, 2016 changed its name to Newgioco Group, Inc. The Company maintains its principal executive offices headquartered in Toronto, Canada with wholly owned subsidiaries in Italy and Austria.

Our subsidiaries include: Multigioco Srl ("Multigioco") which was acquired on August 15, 2014, Rifa Srl ("Rifa") which was acquired on January 1, 2015, as well as Ulisse GmbH ("Ulisse") and Odissea Betriebsinformatik Beratung GmbH ("Odissea") which were both acquired on July 1, 2016.

Newgioco Group is now a vertically integrated company which owns and operates an innovative, certified Betting Platform Software ("BPS") and offering a complete suite of online and offline leisure gaming services including a variety of lottery and casino gaming, as well as sports betting through a distribution network of retail betting locations situated throughout Italy.

2. Going concern

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates realization of assets and the satisfaction of liabilities in the normal course of business.

The Company had a working capital deficit of \$1,879,572 as of June 30, 2017, and reported operating losses for the past two years. There are no assurances that management will be successful in achieving sufficient cash flows to fund the Company's working capital needs, or whether the Company will be able to refinance or renegotiate its obligations when they become due or raise additional capital through future debt or equity. These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. No adjustments have been made to the carrying value of assets or liabilities as a result of this uncertainty.

Management plans to mitigate its losses in future years by significantly reducing its operating expenses, seeking out new business opportunities and attempting to raise debt or equity financing. However, there is no assurance that the Company will be able to obtain additional financing, reduce its operating expenses or be successful in maintaining a viable business.

### 3. Summary of Significant Accounting Policies

#### a) Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries, all of which are wholly owned. All significant inter-company transactions are eliminated upon consolidation.

Certain amounts of prior periods were reclassified to conform with current period presentation.

#### b) Use of estimates

The preparation of the financial statements in conformity with Generally Accepted Accounting Principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from those estimates. These estimates and assumptions include valuing equity securities issued in share based payment arrangements, determining the fair value of assets acquired, allocation of purchase price, impairment of long-lived assets, the collectability of receivables and the value of deferred taxes and related valuation allowances. Certain estimates, including evaluating the collectability of receivables and advances, could be affected by external conditions, including those unique to our industry, and general economic conditions. It is possible that these external factors could have an effect on our estimates that could cause actual results to differ from our estimates. We re-evaluate all of our accounting estimates at least quarterly based on these conditions and record adjustments when necessary.

#### c) Goodwill

Goodwill is recognized for the excess of the purchase price over the fair value of tangible and identifiable intangible net assets of businesses acquired. Goodwill is not being amortized, but is reviewed at least annually for impairment. In our evaluation of goodwill impairment, we perform a qualitative assessment to determine if it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the qualitative assessment is not conclusive, we proceed to a two-step process to test goodwill for impairment including comparing the fair value of the reporting unit to its carrying value (including attributable goodwill). Fair value for our reporting units is determined using an income or market approach incorporating market participant considerations and management's assumptions on revenue growth rates, operating margins, discount rates and expected capital expenditures. Fair value determinations may include both internal and third-party valuations. Unless circumstances otherwise dictate, we perform our annual impairment testing in the fourth quarter.

We perform the allocation based on our knowledge of the market in which we operate, and our overall knowledge of the leisure betting and gaming industry.

#### d) Business Combinations

We allocate the fair value of purchase consideration to the tangible and intangible assets acquired and liabilities assumed based on their estimated fair values. The excess of the fair value of purchase consideration over the fair values of these identifiable assets and liabilities is recorded as goodwill.

Such valuations require management to make significant estimates and assumptions, especially with respect to intangible assets. Significant estimates in valuing certain intangible assets include, but are not limited to, future expected cash flows from acquired users, acquired technology, and trade names from a market participant perspective, useful lives and discount rates. Management's estimates of fair value are based upon assumptions believed to be reasonable, but which are inherently uncertain and unpredictable and, as a result, actual results may differ from estimates.

#### e) Long-Lived Assets

We evaluate the carrying value of our long-lived assets for impairment by comparing the expected undiscounted future cash flows of the assets to the net book value of the assets when events or circumstances indicate that the carrying amount of a long-lived asset may not be recoverable. If the expected undiscounted future cash flows are less than the net book value of the assets, the excess of the net book value over the estimated fair value will be charged to earnings.

Fair value is based upon discounted cash flows of the assets at a rate deemed reasonable for the type of asset and prevailing market conditions, appraisals, and, if appropriate, current estimated net sales proceeds from pending offers.

f) Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. The Company evaluates all of its financial instruments, including convertible notes and stock purchase warrants, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported as charges or credits to income.

For option-based simple derivative financial instruments, the Company uses the Black-Scholes option-pricing model to value the derivative instruments at inception and subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is re-assessed at the end of each reporting period.

g) Earnings Per Share

FASB ASC 260, "Earnings Per Share" provides for calculation of "basic" and "diluted" earnings per share. Basic earnings per share includes no dilution and is computed by dividing net income (loss) available to common shareholders by the weighted average common shares outstanding for the period. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of an entity similar to fully diluted earnings per share. These potentially dilutive securities were not included in the calculation of loss per share for the six months ended June 30, 2017 and the three and six months ended June 30, 2016, thus the effect would have been anti-dilutive. Accordingly, basic and diluted loss per common share is the same for all periods presented, except three months ended June 30, 2017, when the Company had income per share.

h) Currency translation

Since the Company's subsidiaries operate in Europe, the subsidiaries functional currency is the Euro. In the consolidated financial statements, revenue and expense accounts are translated at the average rates during the period, and assets and liabilities are translated at period-end rates and equity accounts are translated at historical rate. Translation adjustments arising from the use of different exchange rates from period to period are included as a component of stockholders' equity. Gains and losses from foreign currency transactions are recognized in current operations.

i) Revenue Recognition

Revenues from sports-betting, casino, cash and skill games; slots, bingo and horse race wagers represent the gross pay-ins (also referred to as Turnover) from customers less gaming taxes and payouts to customers. Revenues are recorded when the game is closed. In addition, the Company receives commissions from the sale of scratch tickets and other lottery games. Commissions are recorded when the ticket for scratch off tickets and lottery tickets are sold.

Revenues from Betting Platform Software ("BPS") include license fees, training, installation, and product support services. Revenue is recognized when the significant risks and rewards of ownership are transferred or when the obligation is fulfilled. License fees are calculated as a percentage of each licensee's level of activity and are contingent upon the licensee's usage. The license fees were recognized on an accrual basis as earned.

j) Cash and equivalents

The Company considers all highly liquid debt instruments with maturities of three months or less at the time acquired to be cash equivalents. Cash equivalents represent short-term investments consisting of investment-grade corporate and government obligations, carried at cost, which approximates market value. The Company had no cash equivalents as of June 30, 2017 and December 31, 2016.

The Company primarily places its cash with high-credit quality financial institutions, one of which is located in the United States and is insured by the Federal Deposit Insurance Corporation for up to \$250,000 and another which is located in Italy and is insured by the Italian government.

k) Gaming accounts receivable & allowance for doubtful accounts

Gaming accounts receivable represents gaming deposits made by customers to their online gaming accounts either directly by credit card, bank wire, e-wallet or other accepted method through one of our websites or indirectly by cash collected at the cashier of a betting shop but not yet credited to our bank accounts and subject to normal trade collection terms without discounts. The Company periodically evaluates the collectability of its gaming accounts receivable and considers the need to record or adjust an allowance for doubtful accounts based upon historical collection experience and specific customer information. Actual amounts could vary from the recorded estimates. The Company does not require collateral to support customer receivables.

l) Gaming account balances

Gaming account balances represent customer balances, including winnings and deposits, that are held as credits in online gaming accounts and have not as of yet been used or withdrawn by the customers. Customers can request payment from the Company at any time and the payment to customers can be made through bank wire, credit card, or cash disbursement from one of our locations. Online gaming account credit balances are non-interest bearing.

m) Fair Value Measurements

ASC Topic 820, Fair Value Measurement and Disclosures, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. This topic also establishes a fair value hierarchy which requires classification based on observable and unobservable inputs when measuring fair value. There are three levels of inputs that may be used to measure fair value:

Level 1: Observable inputs such as quoted prices (unadjusted) in active market for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs in which little or no market data exists, therefore developed using estimates and assumptions developed by us, which reflect those that a market participant would use.

The carrying value of the Company's short term investments, prepaid expenses, accounts receivables, other current assets, accounts payable and accrued liabilities, gaming account balance, and advances from shareholder approximate fair value because of the short-term maturity of these financial instruments.

The derivative liability in connection with the conversion feature of the convertible debt and warrants is classified as a level 3 liability, and is the only financial liability measured at fair value on a recurring basis.

The change in the Level 3 financial instrument is as follows:

Balance at December 31, 2015	\$	28,375
Issued during the year ended December 31, 2016		609,256
Exercised during the year ended December 31, 2016		—
Change in fair value recognized in operations		(426,369)
Balance at December 31, 2016		211,262
Issued during the six months ended June 30, 2017		218,170
Change in fair value recognized in operations		(136,695)
Balance at June 30, 2017	\$	292,737

n) Property, plant and equipment

Property, plant and equipment are stated at acquisition cost less accumulated depreciation and adjustments for impairment losses. Expenditures are capitalized only when they increase the future economic benefits embodied in an item of property, plant and equipment. All other expenditures are recognized as expenses in the statement of income as incurred.

Depreciation is charged on a straight-line basis over the estimated remaining useful lives of the individual assets. Amortization commences from the time an asset is put into operation. The range of the estimated useful lives is as follows:

Trademarks / names	14 years
Office equipment	5 years
Office furniture	8 1/3 years
Signs and displays	5 years

o) Leases

Leases are reviewed and classified as capital or operating at their inception in accordance with ASC Topic 840, Accounting for Leases. For leases that contain rent escalations, the Company records rent expense on the straight line method. The difference between rent expense recorded and the amount paid is credited or charged to deferred rent account and is included in accrued expenses and other current liabilities.

All lease agreements of the Company as lessees are accounted for as operating leases as of June 30, 2017 and 2016.

p) Income Taxes

We use the asset and liability method of accounting for income taxes in accordance with ASC Topic 740, "Income Taxes." Under this method, income tax expense is recognized for the amount of: (i) taxes payable or refundable for the current year and (ii) deferred tax consequences of temporary differences resulting from matters that have been recognized in an entity's financial statements or tax returns. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the results of operations in the period that includes the enactment date. A valuation allowance is provided to reduce the deferred tax assets reported if based on the weight of the available positive and negative evidence, it is more likely than not some portion or all of the deferred tax assets will not be realized.

ASC Topic 740.10.30 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC Topic 740.10.40 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. We have no material uncertain tax positions for any of the reporting periods presented.

The Company has elected to include interest and penalties related to uncertain tax positions, if determined, as a component of income tax expense.

In Italy, tax years beginning 2011 forward, are open and subject to examination, while in Austria companies are open and subject to inspection for 5 years and 10 years for inspection of serious infractions. The Company is not currently under examination and it has not been notified of a pending examination.

q) Comprehensive Income (Loss)

Comprehensive income (loss) is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources, including foreign currency translation adjustments and unrealized gains and losses on marketable securities.

The Company adopted FASB ASC 220-10-45, "Reporting Comprehensive Income". ASC 220-10-45 establishes standards for reporting and presentation of comprehensive income and its components in a full set of financial statements. ## 18. Income Taxes

The Company is incorporated in the United States of America and is subject to United States federal taxation. No provisions for income taxes have been made as the Company had no U.S. taxable income for the six months ended June 30, 2017 and 2016.

The Company's Italian subsidiaries are governed by the income tax laws of Italy. The corporate tax rate in Italy is 28.82% (IRES at 24% plus IRAP ordinary at 4.82%) on income reported in the statutory financial statements after appropriate tax adjustments.

The Company's Austrian subsidiaries are governed by the income tax laws of Austria. The corporate tax rate in Austria is 25% on income reported in the statutory financial statements after appropriate tax adjustments.

The reconciliation of income tax expense at the U.S. statutory rate of 35% to the Company's effective tax rate is as follows:

	June 30, 2017	June 30, 2016
U.S. Statutory rate	\$ (198,540)	\$ (220,294)
Tax rate difference between Italy, Austria and U.S.	18,156	18,358
Change in Valuation Allowance	270,565	222,857
Permanent difference	(28,726)	6,762
Effective tax rate	<u>\$ 61,455</u>	<u>\$ 27,863</u>

The Company has accumulated a net operating loss carry forward ("NOL") of approximately \$12.2 million as of June 30, 2017 in the U.S. This NOL may be offset against future taxable income through the year 2036. The use of these losses to reduce future income taxes will depend on the generation of sufficient taxable income prior to the expiration of the NOL. The Company periodically evaluates whether it is more likely than not that it will generate sufficient taxable income to realize the deferred income tax asset. At the present time, management cannot presently determine when the Company will be able to generate sufficient taxable income to realize the deferred tax asset; accordingly, a 100% valuation allowance has been established to offset the asset.

Utilization of NOLs are subject to limitation due to any ownership change (as defined under Section 382 of the Internal Revenue Code of 1986) which resulted in a change in business direction. Unused limitations may be carried over to future years until the NOLs expire. Utilization of NOLs may also be limited in any one year by alternative minimum tax rules.

Under Italian tax law, the operating loss carryforwards available for offset against future profits can be used indefinitely. Operating loss carryforwards are only available for offset against national income tax, up to the limit of 80% of taxable annual income. This restriction does not apply to the operating loss incurred in the first three years of the Company's activity, which are therefore available for 100% offsetting.

Under Austrian tax law, the operating loss carryforwards available for offset against future profits can be used indefinitely. Operating loss carryforwards are only available for offset against national income tax, up to the limit of 75% of taxable annual income.

The provisions for income taxes consist of currently payable income tax in Italy and Austria. The provisions for income taxes are summarized as follows:

	June 30, 2017	June 30, 2016
Current	\$ 61,455	\$ 27,863
Deferred	-	-
Total	<u>\$ 61,455</u>	<u>\$ 27,863</u>

The tax effects of temporary differences that give rise to the Company's net deferred tax asset are as follows:

	June 30, 2017	June 30, 2016
Net loss carryforward - Foreign	\$ 38,531	\$ 22,606
Net loss carryforward - US	4,280,529	3,377,995
	<u>4,319,060</u>	<u>3,400,601</u>
Less valuation allowance	(4,319,060)	(3,400,601)
Deferred tax assets	<u>\$ —</u>	<u>\$ —</u>

#### 19. Commitments and Contingencies

On May 15, 2017, the Company and Darling Capital reached a settlement agreement related to legal proceedings brought against the Company on January 20, 2017, whereby the Company agreed to pay the Convertible Promissory Notes in three instalments of \$350,000 on May 30, 2017; \$350,000 on June 12, 2017 and \$300,000 on June 26, 2017 totaling \$1,000,000 in full. The Company paid \$125,404 towards the amount due on May 30, 2017. Since the balance of the payments as agreed were late, Darling entered the Consent Judgment as stipulated in the Settlement Agreement.

As a result, the Company will pay an annual interest rate of 22% on agreed settlement amount of \$1,000,000 less payments made from May 15, 2017, the date of the Settlement Agreement, until paid in full. The Company is currently in the process of negotiating a lower rate re-financing to pay the balance due to Darling.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### Overview

Except as expressly stated, the financial condition and results of operations discussed throughout Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") are those of Newgioco Group, Inc. and its consolidated subsidiaries.

The MD&A is intended to provide the reader of our consolidated financial statements with a narrative explanation from the perspective of management of our financial condition, results of operations, liquidity and certain other factors that may affect future results. The MD&A is provided as a supplement to, and should be read in conjunction with, our interim unaudited consolidated financial statements and related notes on this Form 10-Q and the audited consolidated financial statements and related notes thereto included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016. The inclusion of supplementary analytical and related information herein may require us to make appropriate estimates and assumptions to enable us to fairly present, in all material respects, our analysis of trends and expectations with respect to our results of operations and financial position taken as a whole.

### General Plan of Operation

Newgioco Group, Inc. ("Newgioco Group" or "the Company") was incorporated in the state of Delaware on August 26, 1998 as Pender International Inc. On September 30, 2005, the Company changed its name to Empire Global Corp., and on July 20, 2016 changed its name to Newgioco Group, Inc. The Company maintains its principal executive offices headquartered in Toronto, Canada with wholly owned subsidiaries in Italy and Austria.

Our subsidiaries include: Multigioco Srl ("Multigioco") which was acquired on August 15, 2014, Rifa Srl ("Rifa") which was acquired on January 1, 2015, as well as Ulisse GmbH ("Ulisse") and Odissea Betriebsinformatik Beratung GmbH ("Odissea") which were both acquired on July 1, 2016.

Newgioco Group is now a vertically integrated company which owns and operates an innovative Betting Platform Software ("BPS") and offering a complete suite of online and offline leisure gaming services including a variety of lottery and casino gaming, as well as sports betting through a distribution network of retail betting locations situated throughout Italy. The Company intends to grow through acquisitions and organic development of its distribution network in Italy in addition to exploring new opportunities in regulated gaming markets internationally.

Our revenues are derived from gaming products distributed by our subsidiaries in addition to business-to-business BPS services to third party operators provided by our subsidiary Odissea.

### COMPARISON OF THE THREE AND SIX MONTHS ENDED JUNE 30, 2017 AND 2016.

#### Results of Operations

As a result of the acquisitions of Odissea and Ulisse, our business operations have changed. Accordingly, comparisons of our results of operations and cash flows periods prior to these acquisitions are generally not meaningful.

The Company has incurred substantial costs related to the acquisition of our new businesses and is subject to risks inherent in the establishment of a new business venture, including limited capital resources, possible delays in the decision and implementation of a new business plan. Our primary focus is on increasing revenues by capturing a larger market share by acquiring new clients and gaming locations.

#### Revenues

The Company generated revenues of \$4,094,423 and \$7,969,624 for the three and six months ended June 30, 2017, respectively, compared to revenues of \$1,525,658 and \$3,272,844 for the three and six months ended June 30, 2016, respectively. The revenues are comprised of Net Gaming Revenues derived from providing online and offline gaming products, services, and BPS services in Italy.

The increase in revenues in the three and six months ended June 30, 2017 over the same period ended June 30, 2016 is attributed to the growth in our land-based gaming operations and revenues derived from BPS services that were a direct result of the July 1, 2016 acquisition of Ulisse and Odissea.

The Company had approximately 1,000 web-based shops, 7 corners and 109 agencies as of June 30, 2017, compared to approximately 1,067 web-based shops, 5 corners and 2 agencies as of June 30, 2016.

The following table represents a detailed breakdown of revenue from our gaming operations for the three and six months ended June 30, 2017 and 2016:

The Company's major general and administrative expenses for the six months ended June 30, 2017 and 2016 were as follows:

	Six Months Ended

The increase is due to the expansion of our retail operations from 7 land-based locations to approximately 118 land-based locations as a result of the July 1, 2016 acquisitions.

#### Interest Expenses

The Company had incurred interest expense, net of interest income, of \$83,540 and \$250,387 for the three and six months ended June 30, 2017, respectively, compared to interest expense, net of interest income, of \$206,951 and \$305,495 for the three and six months ended June 30, 2016, respectively.

The increase is due to the increased taxable income in Austria.

The increase in net loss is due to costs incurred for the certification of our BPS and also to the increase in selling expenses and costs associated with July 1, 2016 acquisition of Ulisse and Odissea. Furthermore, betting payouts in Q1 2017 were higher than normal, favoring our customers.

#### Other Comprehensive Income

Our other comprehensive income consists of foreign currency translation adjustments related to the effect of foreign exchange on the value of our assets denominated in Euro.

The Company's reporting currency is the U.S. dollar while the functional currency of our subsidiaries is the Euro, the local currency in Italy and Austria. ##### Liabilities

At June 30, 2017, we had \$4,557,844 in current liabilities and \$819,188 in long term liabilities, compared to current liabilities of \$4,196,260 and long-term liabilities of \$742,189 at December 31, 2016.

##### Working Capital

The Company had \$2,125,833 in cash and cash equivalents at June 30, 2017, compared to \$2,230,422 cash and cash equivalents at December 31, 2016. As of June 30, 2017, we had a total accumulated deficit of \$11,892,217.

There is no assurance that we will be able to achieve a profitable level of operations sufficient to meet our ongoing cash needs.

During the development phase of our business over the past several years, we sustained recurring losses and negative cash flows from operations. As a result, we currently have a working capital deficit. Our operations most recently have been funded through a combination of the sale of debentures, convertible and promissory notes, as well as through the issuance of our common stock. We are pursuing potential equity and/or debt investors and have engaged placement agents to assist us in this initiative. While we are pursuing the opportunities and actions described above, there can be no assurance that we will be successful in our efforts.

The Company currently maintains an operating line of credit for a maximum amount of EUR 350,000 (approximately U.S. \$399,385) from Banca Veneto in Italy. The line of credit is guaranteed by certain shareholders of the Company and bears a fixed rate of interest at 5% per annum on the outstanding balance with no minimum payment, maturity or due date.

On September 30, 2016, the Company obtained a loan of EUR 500,000 (approximately U.S. \$561,000) from Banca Veneto in Italy, which is secured by the Company's assets. Although we intend to maintain our lending relationships with Banca Veneto, we believe that our focus should be on obtaining additional capital through the private placement and/or the sale of our securities. Any additional equity financing may result in substantial dilution to the percentage ownership of our stockholders.

#### Contractual Obligations

Current accounting standards require disclosure of material obligations and commitments to make future payments under contracts, such as debt, lease agreements, and purchase obligations. Please refer to Notes 7-10, and 12-16 of the Notes to the Consolidated Financial Statements for information related to debt obligations.

We do not have any non-consolidated, special-purpose entities.

## Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Newgioco Group is a smaller reporting company (as defined by Rule 12b-2 of the Exchange Act) and is not required to provide the information required under this item.

## Item 4. Controls and Procedures.

We have adopted and maintain disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), that are designed to ensure that information required to be disclosed in our reports under the Exchange Act, is recorded, processed, summarized and reported within the time periods required under the SEC's rules and forms and that the information is gathered and communicated to our management, including our Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Financial Officer), to allow for timely decisions regarding required disclosure.

As required by SEC Rule 15d-15(b), our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 15d-14 as of the end of the period covered by this report. Based on the foregoing evaluation, our CEO and CFO concluded that due to our limited resources our disclosure controls and procedures are not effective in providing material information required to be included in our periodic SEC filings on a timely basis and to ensure that information required to be disclosed in our periodic SEC filings is accumulated and communicated to our management, including our CEO and CFO, to allow timely decisions regarding required disclosure about our internal control over financial reporting discussed below.

## Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting for our company. Our internal control system was designed to, in general, provide reasonable assurance to our management and board regarding the preparation and fair presentation of published financial statements, but because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management assessed the effectiveness of our internal control over financial reporting as of June 30, 2017. The framework used by management in making that assessment was the criteria set forth in the document entitled "Internal Control - Integrated Framework" issued by the Committee of Sponsoring Organizations (COSO) of the Treadway Commission. Based on that assessment, our management has determined that as of June 30, 2017, our internal control over financial reporting was not effective due to material weaknesses resulting from our limited resources.

Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission. This quarterly report does not include an attestation report of the Company's registered accounting firm regarding internal control over financial reporting.

## Changes in Internal Control Over Financial Reporting

There were no changes to our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II - OTHER INFORMATION

### Item 1. Legal Proceedings.

The Company may be subject to claims arising in the ordinary course of business. We are not a party to, or the subject of, any pending legal proceeding.

On May 15, 2017, the Company and Darling reached a settlement agreement related to legal proceedings brought against the Company on January 20, 2017, whereby the Company agreed to pay the Convertible Promissory Notes in three instalments of \$350,000 on May 30, 2017; \$350,000 on June 12, 2017 and \$300,000 on June 26, 2017 totaling \$1,000,000 in full. The Company paid \$125,000 towards the amount due on May 30, 2017, since the balance of the payments as agreed were late, Darling entered the Consent Judgement as stipulated in the Settlement Agreement.

As a result, the Company will pay an annual interest rate of 22% on agreed settlement amount of \$1,000,000 less payments made from May 15, 2017, the date of the Settlement Agreement, until paid in full. The Company is currently in the process of negotiating a lower rate re-financing to pay the balance due to Darling.
