ABOUT THIS PROSPECTUS SUPPLEMENT

This prospectus supplement is part of a registration statement that we have filed with the Securities and Exchange Commission (the “SEC”) utilizing a “shelf” registration process. Under the shelf registration process, we may offer securities having an aggregate offering price of up to \$100,000,000 under the accompanying base prospectus. This prospectus supplement may add to, update or change information in the accompanying prospectus and the documents incorporated by reference into this prospectus supplement or the accompanying prospectus.

We provide information to you about this offering of shares of our Common Stock and Pre-Funded Warrants in two separate documents that are bound together: (1) this prospectus supplement, which describes the specific details regarding this offering of shares of our Common Stock and the Pre-Funded Warrants; and (2) the accompanying base prospectus, which provides general information, some of which may not apply to this offering. Generally, when we refer to this “prospectus,” we are referring to both documents combined.

If information in this prospectus supplement is inconsistent with the accompanying base prospectus or with any document incorporated by reference that was filed with the SEC before the date of this prospectus supplement, you should rely on this prospectus supplement. Any statement so modified will be deemed to constitute a part of this prospectus only as so modified, and any statement so superseded will be deemed not to constitute a part of this prospectus. However, if any statement in one of these documents is inconsistent with a statement in another document having a later date—for example, a document incorporated by reference in this prospectus supplement, the statement in the document having the later date modifies or supersedes the earlier statement as our business, financial condition, results of operations and prospects may have changed since the earlier dates.

This prospectus supplement, the accompanying base prospectus and the documents incorporated into each by reference include important information about us, the securities being offered and other information you should know before investing in our securities. You should also read and consider information in the documents we have referred you to in the section of this prospectus supplement and the accompanying base prospectus entitled “Where You Can Find More Information” and “Incorporation of Certain Documents By Reference.”

You should rely only on the information contained in or incorporated by reference into this prospectus supplement and the accompanying base prospectus we may provide to you in connection with this offering and the information incorporated or deemed to be incorporated by reference therein. We have not, and the placement agent has not, authorized anyone to provide you with information that is in addition to or different from that contained or incorporated by reference in this prospectus supplement and the accompanying base prospectus. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and the placement agent is not, offering to sell these securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information contained or incorporated by reference in this prospectus supplement or the accompanying base prospectus is accurate as of any date other than as of the date of this prospectus supplement or the accompanying base prospectus, as the case may be, or in the case of the documents incorporated by reference, the date of such documents regardless of the time of delivery of this prospectus supplement and the accompanying base prospectus or any sale of our securities. Our business, financial condition, liquidity, results of operations and prospects may have changed since those dates.

We further note that the representations, warranties and covenants made by us in any agreement that is filed as an exhibit to any document that is incorporated by reference in this prospectus supplement were made solely for the benefit of the parties to such agreement, including, in some cases, for the purpose of allocating risk among the parties to such agreements, and should not be deemed to be a representation, warranty or covenant to you. Moreover, such representations, warranties or covenants were accurate only as of the date when made. Accordingly, such representations, warranties and covenants should not be relied on as accurately representing the current state of our affairs.

This prospectus supplement contains and incorporates by reference market data and industry statistics and forecasts that are based on independent industry publications and other publicly available information. Although we believe that these sources are reliable, we do not guarantee the accuracy or completeness of this information and we have not independently verified this information. Although we are not aware of any misstatements regarding the market and industry data presented in this prospectus and the documents incorporated herein by reference, these estimates involve risks and uncertainties and are subject to change based on various factors, including those discussed under the heading “Risk Factors” in this prospectus supplement and under similar headings in the other documents that are incorporated by reference into this prospectus. Accordingly, investors should not place undue reliance on this information.

We are offering to sell, and are seeking offers to buy, the shares of our Common Stock and the Pre-Funded Warrants only in jurisdictions where such offers and sales are permitted. No action has been or will be taken in any jurisdiction by us or the placement agent that would permit a public offering of the shares of our Common Stock and the Pre-Funded Warrants or the possession or distribution of this prospectus supplement and the accompanying base prospectus in any jurisdiction, other than in the United States. Persons outside the United States who come into possession of this prospectus supplement and the accompanying base prospectus must inform themselves about, and observe any restrictions relating to, the offering of the shares of our Common Stock and the Pre-Funded Warrants and the distribution of this prospectus supplement and the accompanying base prospectus outside the United States. This prospectus supplement and the accompanying base prospectus do not constitute, and may not be used in connection with, an offer to sell, or a solicitation of an offer to buy, any securities offered by this prospectus supplement and the accompanying base prospectus by any person in any jurisdiction in which it is unlawful for such person to make such an offer or solicitation.

Such forward-looking statements include those that express plans, anticipation, intent, contingency, goals, targets or future development and/or otherwise are not statements of historical fact. These forward-looking statements are based on our current expectations and projections about future events and they are subject to risks and uncertainties known and unknown that could cause actual results and developments to differ materially from those expressed or implied in such statements.

In some cases, you can identify forward-looking statements by terminology, such as “may,” “should,” “would,” “expect,” “intend,” “anticipate,” “believe,” “estimate,” “continue,” “plan,” “potential” and similar expressions. If we do update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

New factors emerge from time to time, and it is not possible for us to predict which factors will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. We qualify all of the information presented in this prospectus supplement particularly our forward-looking statements, by these cautionary statements.

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights certain information about this offering and selected information contained elsewhere in or incorporated by reference into this prospectus supplement and the accompanying prospectus. This summary is not complete and does not contain all of the information that you should consider before deciding whether to invest in our securities. You should carefully read this entire prospectus supplement and the accompanying prospectus, including the information incorporated by reference herein and therein, including the "Risk Factors" section contained in this prospectus supplement and the other documents incorporated by reference into this prospectus supplement.

Overview

We currently provide our B2C gaming services in Italy through our subsidiary, Multigioco Srl ("Multigioco"), which operations are carried out via both land-based or online retail gaming licenses regulated by the Agenzia delle Dogane e dei Monopoli ("ADM") that permits us to distribute leisure betting products such as sports betting, and virtual sports betting products through both physical, land-based retail locations as well as online through our licensed website www.newgioco.it or commercial webskins linked to our licensed website and through mobile devices. Management implemented a consolidation strategy in the Italian market by integrating all B2C operations into Multigioco and allowed the Austria Bookmaker license that was regulated by the Austrian Federal Finance Ministry ("BMF") to terminate.

We also provide bookmaking services in the U.S. market via our recently acquired subsidiary US Bookmaking in certain regulated states where we offer B2B bookmaking and platform services to our customers. Our intention is to focus our attention on expanding the U.S. market. We recently began operations in Washington, D.C. through a Class B Managed Service Provider and Class B Operator license to operate a sportsbook within the Grand Central Restaurant and Sportsbook located in the Adams Morgan area of Washington, D.C., and in October 2021 we entered into an agreement with Ocean Casino Resort in Atlantic City and commenced operations in the state of New Jersey in March 2022.

Additionally, we provide B2B gaming technology through our Odissea subsidiary which owns and operates a betting software designed with a unique "distributed model" architecture colloquially named Elys Game Board (the "Platform"). The Platform is a fully integrated "omni-channel" framework that combines centralized technology for updating, servicing and operations with multi-channel functionality to accept all forms of customer payment through the two distribution channels described above. The omni-channel software design is fully integrated with a built in player gaming account management system, built-in sports book and a virtual sports platform through our Virtual Generation subsidiary. The Platform also provides seamless application programming interface integration of third-party supplied products such as online casino, poker, lottery and horse racing and has the capability to incorporate e-sports and daily fantasy sports providers. Management implemented a growth strategy to expand B2B gaming technology operations in the U.S. and is considering further expansion in Canada and Latin American countries in the near future.

Our corporate group is based in North America, which includes an executive suite situated in Las Vegas, Nevada and a Canadian office in Toronto, Ontario through which we carry-out corporate activities, handle day-to-day reporting and U.S. development planning, and through which various employees, independent contractors and vendors are engaged.

For the period ended March 31, 2022, transaction revenue generated through our subsidiary Multigioco consisted of wagering and gaming transaction income broken down to: (i) spread on sports bet wagers, and (ii) fixed rate commissions on casino, poker, lotto and horse racing wagers from online based betting web-shops and websites as well as land-based retail betting shops located throughout Italy; while our service revenue generated by our Platform is primarily derived from bet and wager processing in Italy through Multigioco, and in the U.S., through Elys Gameboard Technologies and USB. Since the majority of CTD locations were not expected to re-open after the COVID-19 related lockdowns in Italy subsided, management simplified our Italian footprint by focusing our investment towards the Multigioco operations and discontinued Ulisse presence in Italy during the second quarter of 2021.

We believe that our Platform is considered one of the newest betting software platforms in the world and our plan is to expand our Platform offering to new jurisdictions around the world on a B2B basis, including expansion through Europe, South America, South Africa and the developing market in the United States. During the three months ended March 31, 2022 and 2021, we also generated service revenue from royalties through authorized agents by providing our virtual sports products through our Virtual Generation subsidiary and generated service revenues through the provision of bookmaking and platform services through our recently acquired subsidiary, US Bookmaking. We intend to leverage our partnerships in Europe, South America, South Africa and the United States to cross-sell our Platform services to expand the global distribution of our betting solutions.

RISK FACTORS

An investment in our securities involves a high degree of risk. Prior to making a decision about investing in our securities, you should carefully consider the risk factors described below and in the accompanying prospectus and the risk factors discussed in the sections entitled "Risk Factors" contained in our most recent annual report on Form 10-K and in our subsequent Quarterly Reports on Form 10-Q and our Current Reports on Form 8-K, as updated by our subsequent filings under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), each of which is incorporated by reference in this prospectus supplement and the accompanying prospectus, together with all of the other information contained in this prospectus supplement and the accompanying prospectus. Additional risks and uncertainties not presently known to us, or that we currently view as immaterial, may also impair our business. If any of these risks actually occur, our business, financial condition and results of operations could be materially and adversely affected. This could cause the trading price of our Common Stock to decline, resulting in a loss of all or part of your investment.

Risks Related to this Offering

We will have broad discretion in the use of the net proceeds from this offering and, despite our efforts, we may use the net proceeds in a manner that does not increase the value of your investment.

We intend to use the net proceeds, if any, from the sales of the securities offered hereby for general corporate purposes, which may include, among other things, working capital. We may also use a portion of the net proceeds to invest in or acquire other businesses or products, although we have no commitments or agreements with respect to any such licenses, acquisitions or investments as of the date of this prospectus supplement. We retain broad discretion over the use of the net proceeds from the sale of shares of Common Stock and Pre-Funded Warrants offered hereby. Accordingly, you will need to rely upon the judgment of our management with respect to the use of proceeds, potentially with only limited information concerning our specific intentions. These proceeds could be applied in ways that do not improve our operating results or increase the value of your investment.

If you purchase shares of our Common Stock and Pre-Funded Warrants sold in this offering, you will experience immediate and substantial dilution in the net tangible book value of your shares. In addition, we may issue additional equity or convertible debt securities in the future, which may result in additional dilution to investors.

The price per share of our Common Stock being offered may be higher than the net tangible book value per share of our outstanding Common Stock prior to this offering. Based on an aggregate of 2,625,000 shares of our Common Stock sold at a price of \$0.9475 per share and Pre-Funded Warrants to purchase 541,227 sold at a price of \$0.9474 per warrant, for aggregate gross proceeds of approximately \$3 million, and after deducting commissions and estimated offering expenses payable by us, new investors in this offering will incur immediate dilution of \$1.4039 per share. For a more detailed discussion of the foregoing, see the section entitled "Dilution" below. To the extent outstanding stock options or warrants are exercised, there will be further dilution to new investors.

There is no public market for the Pre-Funded Warrants to purchase shares of our Common Stock being offered in this offering.

There is no established public trading market for the Pre-Funded Warrants being offered in this offering, and we do not expect a market to develop. In addition, we do not intend to apply to list the Pre-Funded Warrants on any national securities exchange or other nationally recognized trading system, including The Nasdaq Capital Market. Without an active trading market, the liquidity of the Pre-Funded Warrants will be limited.

The Pre-Funded Warrants purchased in this offering do not entitle the holder to any rights as common stockholders until the holder exercises the warrant for shares of our Common Stock.

Until you acquire shares of our Common Stock upon exercise of your Pre-Funded Warrants purchased in this offering, such warrants will not provide you any rights as a common stockholder, except as set forth therein. Upon exercise of your Pre-Funded Warrants purchased in this offering, you will be entitled to exercise the rights of a common stockholder only as to matters for which the record date occurs on or after the exercise date.

The Pre-Funded Warrants are speculative in nature.

The Pre-Funded Warrants offered hereby do not confer any rights of Common Stock ownership on their holders, such as voting rights or the right to receive dividends, but rather merely represent the right to acquire shares of Common Stock at a fixed price. Specifically, commencing on the date of issuance, holders of the Pre-Funded Warrants may acquire the shares of Common Stock issuable upon exercise of such warrants at an exercise price of \$0.0001 per share of Common Stock. Moreover, following this offering, the market value of the Pre-Funded Warrants is uncertain and there can be no assurance that the market value of the Pre-Funded Warrants will equal or exceed their public offering price.

Provisions of the Pre-Funded Warrants offered by this prospectus could discourage an acquisition of us by a third party.

Certain provisions of the Pre-Funded Warrants offered by this prospectus could make it more difficult or expensive for a third party to acquire us. The Pre-Funded Warrants prohibit us from engaging in certain transactions constituting “fundamental transactions” unless, among other things, the surviving entity assumes our obligations under the Pre-Funded Warrants. These and other provisions of the Pre-Funded Warrants offered by this prospectus could prevent or deter a third party from acquiring us even where the acquisition could be beneficial to shareholders.

You may experience future dilution as a result of future equity offerings.

In order to raise additional capital, we may in the future offer additional shares of our Common Stock or other securities convertible into or exchangeable for our Common Stock at prices that may not be the same as the price per share in this offering. We may sell shares or other securities in any other offering at a price per share that is less than the price per share paid by investors in this offering, and investors purchasing shares or other securities in the future could have rights superior to existing stockholders. The price per share at which we sell additional shares of our Common Stock, or securities convertible or exchangeable into Common Stock, in future transactions may be higher or lower than the price per share paid by investors in this offering.

Resales of our Common Stock in the public market during this offering by our stockholders may cause the market price of our Common Stock to fall.

We may issue Common Stock from time to time in connection with this offering. This issuance from time to time of these new shares of our Common Stock, or our ability to issue these shares of Common Stock in this offering, could result in resales of our Common Stock by our current stockholders concerned about the potential dilution of their holdings. In turn, these resales could have the effect of depressing the market price for our Common Stock.

We do not intend to pay cash dividends on our shares of Common Stock so any returns will be limited to the value of our shares.

We currently anticipate that we will retain any future earnings for the development, operation and expansion of our business and do not anticipate declaring or paying any cash dividends for the foreseeable future.

USE OF PROCEEDS

We estimate that the net proceeds from the sale of the 2,625,000 shares of Common Stock and the Pre-Funded Warrants to purchase 541,227 shares of Common Stock that we are offering will be approximately \$2.60 million, after deducting the estimated placement agent fees and estimated offering expenses payable by us.

We will only receive additional proceeds from the exercise of the Purchase Warrants issuable in connection with the private placement if the Purchase Warrants are exercised and the holders of such Warrants pay the exercise price in cash upon such exercise and do not utilize the cashless exercise provision of the Purchase Warrants.

We currently intend to use the net proceeds from the sales of shares of the securities offered by this prospectus supplement for general corporate purposes, which may include, among other things, working capital. We may also use a portion of the net proceeds to invest in or acquire other businesses or products, although we have no commitments or agreements with respect to any such licenses, acquisitions or investments as of the date of this prospectus supplement.

The amounts and timing of our actual expenditures will depend on numerous factors, including our expansion efforts in the United States, as well as the amount of cash used in our operations. We therefore cannot estimate with certainty the amount of net proceeds to be used for the purposes described above. We may find it necessary or advisable to use the net proceeds for other purposes, and we will have broad discretion in the application of the net proceeds. Pending the uses described above, we plan to invest the net proceeds from this offering in short-term, investment-grade, interest-bearing securities.

DIVIDEND POLICY

We have never declared nor paid any cash dividends on our Common Stock, and currently intend to retain all of our cash and any earnings for use in our business and, therefore, do not anticipate paying any cash dividends on our Common Stock in the foreseeable future. Any future determination to pay cash dividends on our Common Stock will be at the discretion of the Board of Directors and will be dependent upon our consolidated financial condition, results of operations, capital requirements and such other factors as the Board of Directors deems relevant.

DILUTION

If you invest in our Common Stock, your interest will be diluted immediately to the extent of the difference between the offering price and the adjusted net tangible book value per share of our Common Stock after this offering.

Our net tangible book value on March 31, 2022 was approximately \$(15.1) million, or \$(0.6423) per share. "Net tangible book value" is total assets minus the sum of tangible liabilities and intangible assets. "Net tangible book value per share" is net tangible book value divided by the total number of shares outstanding.

Our pro forma net tangible book value as of March 31, 2022, was approximately \$(14.9) million, or \$(0.6288) per share of Common Stock. Our pro forma net tangible book value is the amount of our total tangible assets less our liabilities, after giving effect to the sale of 111,544 shares of Common Stock for total net proceeds of \$247,824 from April 1, 2022 through April 15, 2022 pursuant to an Open Market Sale Agreement with Jefferies LLC. Pro forma net tangible book value per shares of Common Stock share is our historical net tangible book value divided by the number of shares of Common Stock outstanding as of March 31, 2022, after giving effect to the sales of shares referenced above.

After giving effect to the sale of 2,625,000 shares of our Common Stock in this offering at an offering price of \$0.9475 per share and the sale of Pre-Funded Warrants to purchase 541,227 shares of Common Stock at an offering price of \$0.9474 per warrant and the issuance of the shares of Common Stock underlying the Pre-Funded Warrants upon the exercise thereof and after deducting estimated offering commissions and estimated offering expenses payable by us, our pro forma as adjusted net tangible book value as of March 31, 2022 would have been approximately \$(12.3) million, or \$0.4564 per share. This represents an immediate increase in pro forma as adjusted net tangible book value of \$0.1724 per share to existing stockholders and an immediate dilution of \$1.4039 per share to new investors purchasing securities in this offering. The following table illustrates this per share dilution:

Offering price per share of Common Stock		\$0.9475
Pro Forma net tangible book value per share as of March 31, 2022	\$	(0.6288)
Increase in net tangible book value per share attributable to new investors purchasing our Common Stock in this offering	\$	0.1724
Pro Forma As adjusted net tangible book value per share after giving effect to this offering		\$ (0.4564)
Dilution per share to investors purchasing our Common Stock in this offering		\$ 1.4039

The table and discussion above are based on 23,583,039 shares of Common Stock issued and outstanding as of March 31, 2022, and excludes as of that date:

- 2,926,438 shares of our Common Stock issuable upon the exercise of outstanding stock options with a weighted average exercise price of \$2.90 per share;
- 3,418,261 additional shares of our Common Stock reserved for future issuance under our equity incentive plans;
- 3,166,227 shares of our Common Stock issuable upon the exercise of the Purchase Warrants offered in the concurrent private placement with an exercise price of \$0.9475 per share; and
- 546,336 shares of our Common Stock to be issued upon exercise of outstanding warrants having a weighted average exercise price of \$2.66 per share.

To the extent that any outstanding options are exercised, new options or additional securities are issued under our equity incentive plans, or we otherwise issue additional shares of Common Stock in the future, at a price less than the offering price, there will be further dilution to the investors. In addition, we may choose to raise additional capital due to market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operating plans. To the extent that additional capital is raised through the sale of equity or convertible debt securities, the issuance of these securities could result in further dilution to our stockholders.

DESCRIPTION OF SECURITIES THAT WE ARE OFFERING

Common Stock

See “Description of Capital Stock—Common Stock” on page 10 of the accompanying prospectus for a description of the material terms of our Common Stock.

Pre-Funded Warrants

The following summary of certain terms and provisions of the Pre-Funded Warrants that are being offered hereby is not complete and is subject to, and qualified in its entirety by the provisions of, the Pre-Funded Warrants. You should carefully review the terms and provisions of the form of the Pre-Funded Warrant for a complete description of the terms and conditions of the Pre-Funded Warrants.

The term “pre-funded” refers to the fact that the purchase price of our Common Stock in this offering includes almost the entire exercise price that will be paid under the Pre-Funded Warrants, except for a nominal remaining exercise price of \$0.0001. The purpose of the Pre-Funded Warrants is to enable the investor that may have restrictions on its ability to beneficially own more than 9.99% (or, upon election of the holder, 4.99%) of our outstanding Common Stock following the consummation of this offering the opportunity to invest capital into our company without triggering their ownership restrictions, by receiving Pre-Funded Warrants in lieu of our Common Stock which would result in such ownership of more than 9.99% (or 4.99%), and receive the ability to exercise their option to purchase the shares underlying the Pre-Funded Warrants at such nominal price at a later date.

Duration and Exercise Price. The Pre-Funded Warrants offered hereby will entitle the holder thereof to purchase up to an aggregate of 541,227 shares of our Common Stock at a nominal exercise price of \$0.0001 per share, commencing immediately on the date of issuance, expected to be June 15, 2022. The Pre-Funded Warrants will be issued separately from the Common Stock and may be transferred separately immediately thereafter.

Exercise Limitation. The holder will not have the right to exercise any portion of the pre-funded warrant if the holder (together with its affiliates) would beneficially own in excess of 9.99% (or, upon election of the holder, 4.99%) of the number of shares of our Common Stock outstanding immediately after giving effect to the exercise, as such percentage ownership is determined in accordance with the terms of the Pre-Funded Warrants. However, the holder may increase or decrease such percentage, provided that any increase will not be effective until the 61st day after such election.

Exercise Price Adjustment. The exercise price of the Pre-Funded Warrants is subject to appropriate adjustment in the event of certain stock dividends and distributions, stock splits, stock combinations, reclassifications or similar events affecting our Common Stock and also upon any distributions of assets, including cash, stock or other property to our stockholders.

Transferability. Subject to applicable laws, the Pre-Funded Warrants may be offered for sale, sold, transferred, or assigned without our consent.

Exchange Listing. There is no established trading market for the Pre-Funded Warrants, and we do not expect a market to develop. In addition, we do not intend to apply for the listing of the Pre-Funded Warrants on any national securities exchange or other trading market. Without an active trading market, the liquidity of the Pre-Funded Warrants will be limited.

Subsequent Rights Offerings. Subject to certain exceptions, if a fundamental transaction occurs, then the successor entity will succeed to, and be substituted for us, and may exercise every right and power that we may exercise and will assume all of our obligations under the Pre-Funded Warrants with the same effect as if such successor entity had been named in the pre-funded warrant itself. If holders of our Common Stock are given a choice as to the securities, cash or property to be received in a fundamental transaction, then the holder shall be given the same choice as to the consideration it receives upon any exercise of the pre-funded warrant following such fundamental transaction.

Rights as a Stockholder. Except as otherwise provided in the Pre-Funded Warrants or by virtue of such holder’s ownership of shares of our Common Stock, the holder of a Pre-Funded Warrants does not have the rights or privileges of a holder of our Common Stock, including any voting rights, until the holder exercises the pre-funded warrant.

PRIVATE PLACEMENT TRANSACTION

In a concurrent private placement, we plan to issue and sell to same institutional investor the Purchase Warrants to purchase up to an aggregate of 3,166,227 shares of Common Stock at an exercise price equal to \$0.9475 per share.

The Purchase Warrants and the shares of Common Stock issuable upon the exercise of such warrants are not being registered under the Securities Act, are not being offered pursuant to this prospectus supplement and the accompanying prospectus and are being offered pursuant to the exemption provided in Section 4(a)(2) under the Securities Act and Rule 506(b) promulgated thereunder. Accordingly, investors may only sell shares of Common Stock issued upon exercise of the Purchase Warrants pursuant to an effective registration statement under the Securities Act covering the resale of those shares, an exemption under Rule 144 under the Securities Act or another applicable exemption under the Securities Act.

Exercisability. The Purchase Warrants are exercisable for a period of five years commencing on December 15, 2022 and expiring December 15, 2027. The warrants will be exercisable, at the option of the holder, in whole or in part by delivering to us a duly executed exercise notice and, at any time a registration statement registering the issuance of shares of Common Stock underlying the Purchase Warrants under the Securities Act is effective and available for the issuance of such shares, or an exemption from registration under the Securities Act is available for the issuance of such shares, by payment in full in immediately available funds for the number of Shares of Common Stock purchased upon such exercise. If a registration statement or current prospectus is not effective or available for the registration of the Purchase Warrants or the resale of the shares of Common Stock underlying the Purchase Warrants under the Securities Act, at any time after the six-month anniversary of the issue date, the holder may, in its sole discretion, elect to exercise the Purchase Warrants through a cashless exercise, in which case the holder would receive upon such exercise the net number of Shares of Common Stock determined according to the formula set forth in the warrant.

Exercise Limitation. A holder will not have the right to exercise any portion of the Purchase Warrants if the holder (together with its affiliates) would beneficially own in excess of 4.99% (or, upon election of the holder, 9.99%) of the number of our shares of Common Stock outstanding immediately after giving effect to the exercise, as such percentage ownership is determined in accordance with the terms of the warrants. Any holder may increase or decrease such percentage, but in no event may such percentage be increased to more than 9.99%, provided that any increase will not be effective until the 61st day after such election.

Exercise Price Adjustment. The exercise price of the Purchase Warrants is subject to appropriate adjustment in the event of certain stock dividends and distributions, stock splits, stock combinations, reclassifications or similar events affecting our shares of Common Stock and also upon any distributions of assets, including cash, stock or other property to our shareholder.

Exchange Listing. There is no established trading market for the Purchase Warrants, and we do not expect a market to develop. In addition, we do not intend to apply for the listing of the Purchase Warrants on any national securities exchange or other trading market.

Subsequent Rights Offerings. If at any time we grant, issue or sell any Shares of Common Stock or Common Stock Equivalents or rights to purchase stock, warrants, securities or other property pro rata to the record holders of any shares of Common Stock (the "Purchase Rights"), the holder of the Purchase Warrants will be entitled to acquire, upon the terms applicable to such Purchase Rights, subject to the beneficial ownership limitations, the aggregate Purchase Rights which the holder of the Purchase Warrants could have acquired if the Holder had held the number of Common Stock acquirable upon complete exercise of the Purchase Warrant.

Fundamental Transactions. In the event of any fundamental transaction, as described in the Purchase Warrants and generally including any merger with or into another entity, sale of all or substantially all of our assets, tender offer or exchange offer, or reclassification of our shares of Common Stock, then upon any subsequent exercise of a Purchase Warrant, the holder will have the right to receive as alternative consideration, for each share of Common Stock that would have been issuable upon such exercise immediately prior to the occurrence of such fundamental transaction, the number of shares of Common Stock of the successor or acquiring corporation of our company, if it is the surviving corporation, and any additional consideration receivable upon or as a result of such transaction by a holder of the number of shares of Common Stock for which the warrant is exercisable immediately prior to such event. Notwithstanding the foregoing, in the event of a fundamental transaction, the holders of the Purchase Warrants have the right to require us or a successor entity to redeem the Purchase Warrants at the Black Scholes Value (as defined in each Purchase Warrant) of the unexercised portion of the Purchase Warrants concurrently with or within thirty (30) days following the consummation of a fundamental transaction. In the event of a fundamental transaction, the holders of the Purchase Warrants will only be entitled to receive from us or our successor entity, as of the date of consummation of such fundamental transaction the same type or form of consideration (and in the same proportion), at the Black Scholes Value of the unexercised portion of the warrant, that is being offered and paid to the holders of our Common Stock in connection with the fundamental transaction, whether that consideration is in the form of cash, stock or any combination of cash and stock, or whether the holders of our Common Stock are given the choice to receive alternative forms of consideration in connection with the fundamental transaction.

Rights as a Stockholder. Except as otherwise provided in the Purchase Warrants or by virtue of such holder's ownership of our Common Stock, the holder of a Purchase Warrant will not have the rights or privileges of a holder of our Common Stock, including any voting rights, until the holder exercises the warrant.

Resale/Registration Rights. We have entered into a securities purchase agreement directly with a certain institutional investor that has agreed to purchase our securities in this offering. We are required within 90 days of the date of the securities purchase agreement to file a registration statement providing for the resale of the shares of Common Stock issued and issuable upon the exercise of the Purchase Warrants. We are required to use commercially reasonable efforts to cause such registration to become effective within 180 days of the closing of the offering and to keep such registration statement effective at all times until no investor owns any Purchase Warrants or shares issuable upon exercise thereof.

You should review a copy of the securities purchase agreement and a copy of the form of the Purchase Warrant to be issued to the investor under the securities purchase agreement, which are executed or issued in connection with this offering and will be filed as exhibits to a Current Report on Form 8-K that we file with the SEC, for a complete description of the terms and conditions of the Purchase Warrants and the related transaction agreements.

PLAN OF DISTRIBUTION

We have engaged H.C. Wainwright & Co., LLC, or the placement agent, to act as our exclusive placement agent to solicit offers to purchase the securities offered by this prospectus supplement and the accompanying base prospectus. The placement agent is not purchasing or selling any such securities, nor is it required to arrange for the purchase and sale of any specific number or dollar amount of such securities, other than to use its “reasonable best efforts” to arrange for the sale of such securities by us. Therefore, we may not sell all of the securities being offered. The terms of this offering were subject to market conditions and negotiations among us, the placement agent and the prospective investors. We have entered into a securities purchase agreement directly with a certain institutional investor that has agreed to purchase our securities in this offering. We will only sell securities in this offering to the investor who has entered into the securities purchase agreement.

Delivery of the securities offered hereby is expected to take place on or about June 15, 2022, subject to satisfaction of customary closing conditions.

Fees and Expenses

We have agreed to pay the placement agent a cash fee equal to 6.0% of the aggregate gross proceeds from the investor in this offering. The following table shows the per share and total cash fees we will pay to the placement agent in connection with the sale of our securities offered pursuant to this prospectus supplement and the accompanying prospectus, assuming the purchase of all of the securities offered hereby.

	Per Share or Pre-Funded Warrant	Total
Public offering price (1)	\$ 0.9475	\$ 3,000,000
Placement agent fees (2)	\$ 0.05685	\$ 180,000
Proceeds, before expenses, to us	\$ 0.89065	\$ 2,820,000

(1) The purchase price of the Pre-Funded Warrants is \$0.9474 per warrant, or \$0.0001 less than the per share purchase price.

We have also agreed to pay the placement agent \$50,000 for fees and expenses of legal counsel and other out-of-pocket expenses plus clearing fees that will not exceed \$15,950. We estimate the total offering expenses of this offering that will be payable by us, excluding the placement agent’s fees and expenses, will be approximately \$180,000.

The securities purchase agreement that we entered into with the investor prohibits, with certain limited exceptions, us: (i) for 60 days following the closing date from issuing any shares of Common Stock or Common Stock Equivalents (as defined in the securities purchase agreement) or filing any registration statement (other than a Form S-8), and (ii) for 90 days following the closing date from issuing any shares of Common Stock or Common Stock Equivalents in a Variable Rate Transaction (as defined in the securities purchase agreement); provided that after 60 days following the closing date we may effect sales under our current at-the-market offering.

In the event that any investor whom the placement agent had contacted during the term of its engagement or introduced to the Company during the term of our engagement of the placement agent provides any capital to us, in a public or private offering or other financing or capital-raising transaction of any kind, within the 12 months following the expiration of termination of the engagement of the placement agent, we shall pay the placement agent the cash compensation provided above, calculated in the same manner.

We have agreed to indemnify the placement agent and specified other persons against certain liabilities relating to or arising out of the placement agent’s activities under its engagement letter, including liabilities under the Securities Act, and to contribute to payments that the placement agent may be required to make in respect of such liabilities.

The placement agent may be deemed to be an underwriter within the meaning of Section 2(a)(11) of the Securities Act, and any commissions received by it and any profit realized on the sale of our securities offered hereby by it while acting as principal might be deemed to be underwriting discounts or commissions under the Securities Act. The placement agent will be required to comply with the requirements of the Securities Act and the Act, including, without limitation, Rule 10b-5 and Regulation M under the Exchange Act. These rules and regulations may limit the timing of purchases and sales of our securities by the placement agent. Under these rules and regulations, the placement agent may not (i) engage in any stabilization activity in connection with our securities; and (ii) bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities, other than as permitted under the Exchange Act, until they have completed their participation in the distribution.

From time to time, the placement agent or its affiliates may provide in the future various advisory, investment and commercial banking and other services to us in the ordinary course of business, for which they have received and may continue to receive customary fees and commissions. However, except as disclosed in this prospectus supplement, we have no present arrangements with the placement agent for any further services.

Overview

We are an international, vertically integrated commercial-stage company engaged in two principal aspects of the leisure gaming industry as (1) a business-to-consumer (“B2C”) licensed retail gaming operator (known as an “Operator”) offering our products through two sales distribution channels in (i) retail land-based or on-site physical venues and (ii) online through PC, tablet and mobile distribution, and (2) as a business-to-business (“B2B”) betting technology provider (known as a “Provider”) offering our proprietary betting technology either (1) directly to licensed operators or (2) through value-added re-sellers or systems integrators in the leisure betting industry.

As an Operator in the regulated Italian leisure betting market, we operate on a single-tier distribution strategy by collecting wagers on leisure betting products including a variety of lottery, casino gaming and sports bets through two channels: (i) online through websites on internet browsers and mobile solutions and also through relationships with affiliated physical venues known as “web-shops” (internet cafes; kiosks, coffee-shops, convenience stores, restaurants and bars, etc.) where patrons can open a game account, deposit funds and by using public Internet access to play online with their personal password protected gaming account through PC’s situated at each venue, and (ii) land-based through physical land-based retail venues. We currently provide our gaming services in Italy through our subsidiary, Multigioco Srl (“Multigioco”), which operations are carried out via both land-based or online retail gaming licenses regulated by the Agenzia delle Dogane e dei Monopoli (“ADM”) that permits us to distribute leisure betting products such as sports betting, and virtual sports betting products through both physical, land-based retail locations as well as online through our licensed website www.newgioco.it or commercial webskins linked to our licensed website and through mobile devices. Our Austria Bookmaker license that is regulated by the Austrian Federal Finance Ministry (“BMF”) permits us to operate online sports betting in certain European jurisdictions outside of Italy through our subsidiary Ulisse GmbH (“Ulisse”) under the free-trade principles incorporated within bilateral Intra-EU trade agreements that refers to all trade, including e-commerce transactions in most goods, services and products between member states of the European Union (“EU”).

As a Provider, we own and operate a Gaming Laboratories International (“GLI”) and ADM certified betting software designed with a unique “distributed model” architecture colloquially named Elys Game Board and virtual gaming software (the “Platform”). The Platform is a fully integrated “omni-channel” framework that combines centralized technology for updating, servicing and operations with multi-channel functionality to accept all forms of customer payment through the distribution channels described above. The omni-channel software design is fully integrated with a built in player gaming account management and a built-in sports book. As a Provider, we employ a multi-tier distribution strategy on both a direct to customer channel and on a shared infrastructure basis.

The Platform is certified by the ADM, the Malta Gaming Authority (“MGA”) in Malta and GLI and is owned by our subsidiary Odissea Betriebsinformatik Beratung GmbH (“Odissea”). The software architecture was developed and built on the latest Microsoft.Net Core framework, supporting both online customer gaming accounts as well as land-based bet processing capability with multi-channel functionality accepting all forms of payment methods (i.e., cash, e-wallet, bank card and wire transfer, etc.) backed by a real-time customer relationship management (“CRM”) and business intelligence (“BI”) program for streamlined cross-platform marketing as well as a synchronized financial accounting processes. Additionally, we are a Provider of virtual gaming software on a B2B basis through our subsidiary Virtual Generation Limited (“VG”). Data processed through our Platform is communicated directly to on-the-ground sales and marketing agents that manage and maintain both our online and land-based retail distribution. The Platform allows our independent B2B customers to (i) rapidly and effectively model their gaming businesses and manage gaming accounts, (ii) monitor and analyze performance on an ongoing basis, (iii) share dashboards, and (iv) generate management reports all within a fully integrated solution. In addition, our clients can use the built-in business intelligence modules to evaluate actual performance and leverage insights from analytics to make informed, timely decisions to drive future business. The unique ‘shop-client’ architecture of the Platform is to our knowledge a one-of-a-kind solution in the leisure betting industry and was built around the specific demands of leisure betting operators and proven through our existing Multigioco operations throughout Italy.

Development of Foreign Markets

- The North America Sports Betting Market. Until 2018 the Interstate Wire Act of 1961 combined with the Professional and Amateur Sports Protection Act of 1992 (“PASPA” or the “Bradley Act”), prohibited sports betting in the U.S. in all but four grandfathered states (Montana, Oregon, Nevada, Delaware). In May 2018, the U.S. Supreme Court overturned PASPA in a 6-3 decision that found the law conflicted with the Tenth Amendment leaving individual states to decide whether to allow its residents to bet on sports. As described below under the section “United States Operations Development”, many states, such as New Jersey, Montana, New Hampshire, Pennsylvania and others, have moved quickly to establish sports betting as a means to increase their respective capital resources. While several states have recently passed legislation to allow online gambling, we believe that the U.S. sports betting market will take 5 – 10 years to fully develop. We believe that the United States represents a large addressable market opportunity for us with our Elys betting Platform. Additionally, in Canada we are observing promising legislative developments and we expect a new digital gaming regulatory framework, combined with the permission of single-event sports wagering, to be in place soon. This additional jurisdiction could represent a meaningful opportunity for our gaming solution.
- Mergers and Acquisition in the Global Gaming Industry. In an effort to scale and grow the business, we intend to evaluate potential acquisitions that can be easily integrated into our business. Our acquisition of VG has allowed us to expand our product offerings in additional countries. The global gaming industry is still very much fragmented. There has been a significant number of noteworthy consolidations such as: (1) The Stars Group/SkyBet (July 2018) and CrownBet/William Hill Australia (April 2018); (2) Paddy Power/Betfair (February 2016) and with Stars Group (April 2020); (3) GVC/BWIN Ladbrokes/Coral (March 2018), and (4) in gaming machine and lottery concentration (IGT/GTECH (April 2015); as well as others such as Pollard/Innova (July 2017); NYX Gaming Group/Scientific Games (January 2018) which we believe provides us with an opportunity to capitalize on the acquisition of smaller operators forced to compete against newly formed larger players. In addition to the above, and specifically in the US, we observed consolidations and acceleration of gaming operators acquiring sports betting technology providers like (1) DraftKings acquiring SBTech (April 2020) (2) Caesars Entertainment acquiring William Hill (September 2020) and (3) Bally’s Corporation acquiring Bet.Works (November 2020) which strengthens our position as one of few remaining, truly independent sport betting providers in the market.

Further Penetration in the Italian Market

- Acquisitions of Smaller Operators. Government legislated consolidation of the regulated Italian lottery and gaming market have driven smaller regional operators in Italy to our licensed brand “New Gioco”TM in both the online and land-based sales channels. The Italian regulated gaming market is the largest in the European Union (“EU”) and is extremely fragmented. Recent new regulations in Italy have made it more difficult for smaller regional operators throughout Italy to operate and we believe that our innovative and cost-effective Platform is an attractive alternative for such smaller regional operators throughout Italy that will not be able to maintain the new standards set out by the Italian regulator on their own.
- Organic Growth. The Italian online gaming market continues to drive substantial growth in our core operations. From January 1, 2020 through December 31, 2020, we increased the number of registered online accounts to over 100,000 players and we operate in Italy approximately 1,000 webshop locations (reload centers), 7 corners and 3 agency locations and believe that there is continued growth opportunity in the Italian market.

Expansion and New Markets

United States Operations Development

In May 2018, the U.S. Supreme Court (“SCOTUS”) ruled that the Professional and Amateur Sports Protection Act (“PASPA”) was unconstitutional as it violated the Tenth Amendment prohibition against forcing states to implement federal laws. Enacted in 1992, PASPA generally prohibited states from authorizing, licensing or sponsoring betting on competitive games in which amateur or professional athletes participate. The SCOTUS decision opens the door for all states to legalize and regulate sports gambling within their borders. States such as Nevada, New Jersey, Delaware, West Virginia, Rhode Island, Pennsylvania, Arkansas, Montana, Illinois, Indiana, Iowa, Tennessee, New York, New Mexico, New Hampshire, North Carolina, Oregon, Michigan, Mississippi, Colorado and the District of Columbia had passed laws that were ready to be enacted once the federal ban on sports betting was lifted. In addition, legislation to authorize sports betting is pending in 13 states: Alabama; California; Connecticut; Florida; Kansas; Louisiana; Maine; Massachusetts; Minnesota; Missouri; Nebraska; Texas; and Vermont. Legislation to expand or reform existing state laws is pending in nine states: Illinois; Iowa; New Hampshire; Nevada; New Jersey; North Carolina; Oregon; Rhode Island; and Tennessee. Meanwhile, bills that would require a study of sports betting are pending in Hawaii and South Carolina.

As of mid-April 2021, we are expecting eight to 12 states to pass bills to authorize sports betting during 2021. States we still see moving forwards by year-end 2021 include Connecticut, Louisiana, Massachusetts and Ohio. We also expect to see online sports betting legalized in North Carolina and sportsbooks launched under tribal-state compacts in North Dakota and Wyoming, with or without new legislation. Longer-term, we expect legal sports betting to spread to 40-46 states before 2025.

We believe that the U.S. sports betting and online gaming market presents a large opportunity to deploy our Platform on a B2B2C basis to several potential independent commercial and tribal casino and gaming operators throughout the United States. In September 2020, our retail sports betting solution obtained GLI certification allowing our technology to be ready for deployment in the U.S. land-based gaming segment. Furthermore, we have analyzed the technical specifications checklist supplied by GLI to verify that coding in our online product meets the functional specifications set forth in the GLI-33 standards (The Gaming Laboratories International technical standard for event wagering systems). We believe that our online Platform currently meets the majority of the GLI-33 certification standards and we expect to be in a position to send our software to GLI for certification in 2021. Upon obtaining GLI-33 certification and obtaining regulatory approvals to operate in the digital segment, we also expect to be well-positioned to commence processing online sports bets in the U.S. on a B2B2C basis through our Platform.

Summary Risk Factors

Our business faces significant risks and uncertainties of which investors should be aware before making a decision to invest in our common stock. If any of the following risks are realized, our business, financial condition and results of operations could be materially and adversely affected. The following is a summary of the more significant risks relating to the Company. A more detailed description of our risk factors is set forth below under the caption “Risk Factors” and under the caption “Risk Factors” in Item 1A in Part I of our Annual Report on Form 10-K/A for the fiscal year ended December 31, 2020 filed with the SEC on April 13, 2021.

Risks Related to our Financial Condition

- The effects of the COVID-19 pandemic have strained and negatively impact our businesses and operations, and the duration and extent to which COVID-19 may impact our future results of operations and overall financial performance remains uncertain.
- Because we have a limited operating history, we may not be able to successfully manage our business or achieve profitability.
- We have incurred substantial losses in the past and it may be difficult to achieve profitability.
- We have material weaknesses and other deficiencies in our internal control and accounting procedure.

Risks Related to our Business

- If we should lose our online or land-based licenses, or if the licenses are not renewed for any reason, including our failure to successfully bid for location rights at the renewal auction, or if we fail to obtain our license in the District of Columbia, our business would be materially adversely impacted and it could result in the impairment of the carrying value of a substantial portion of assets.
- In order to expand our land-based operations in Italy, we will be required to acquire additional location rights under our licenses or acquire operators that have location rights under their licenses and our inability to acquire such additional rights or operators or restrictions from using any licenses associated with such acquired operators, will result in an adverse effect on our operating results.
- If we do not have sufficient capital resources to complete acquisitions and manage our operations, our ability to implement our business plan could be adversely affected.
- A decline in the popularity of our gaming websites or those of our Platform clients will negatively impact our business and risk our future growth.
- Because our gaming operations are concentrated within Italy, we are subject to greater risks than a gaming company that is more geographically and internationally diversified.
- Our current expansion strategy, which includes expansion through Virtual Generation Limited in the various countries in which it operates and in the United States through the use of our Platform certifications, may be difficult to implement because the licensing and certification requirements to operate in the United States and other countries are currently indeterminable.
- We depend upon our officers and other key employees. Our inability to retain such officers and key employees or recruit additional qualified personnel may have a material adverse effect on our business.
- If we have a security incident or breach involving unauthorized access to customer data, our platform may be perceived as lacking sufficient security, customers may reduce their use of, or stop using our betting software and we may incur significant liabilities.
- If we fail or are unable to protect our intellectual property effectively, we may be unable to prevent third parties from using our technologies, which could impair our competitive advantage, proprietary technology and our brand.
- Our research and development efforts are costly and subject to international risks and may not contribute significantly to revenues for several years, if at all.
- If we fail to manage our technical operations infrastructure, our customers may experience service outages and delays, which may adversely affect our business.

Risks Related to our Industry

- Economic conditions, particularly in Italy and Europe, that have an adverse effect on the gaming industry may have an adverse effect on our results of operations.
- Intense competition in the leisure gaming industry may adversely affect our revenue and profitability.
- We expect that competition from internet gaming will continue to grow and intensify in the United States.
- Regulators at the federal and provincial level in Italy are monitoring and restricting the issuance and renewal of gaming licenses which could have an adverse effect on our growth.
- We might be required to acquire additional location rights under our licenses or acquire operators that have existing location rights under their licenses in order to remain in compliance with laws that are required to operate in Italy. Our inability to acquire such additional location rights or operators or any restrictions from using our licenses to operate in Italy or elsewhere in Europe, could result in an adverse effect on our operating results.
- Our current operations are international in scope and we are planning further geographic expansion, creating a variety of potential operational challenges.

Risks Related to Ownership of our Securities

- Our stock price has fluctuated in the past, has recently been volatile and may be volatile in the future, and as a result, investors in our common stock could incur substantial losses.
- Future sales of shares of our common stock or the perception in the public markets that these sales may occur, may depress our stock price.
- Because certain of our stockholders control a significant number of shares of our common stock, they may have effective control over actions requiring stockholder approval.
- The issuance, exercise or conversion of currently outstanding securities would further dilute holders of our common stock.
- Our failure to meet the continued listing requirements of the Nasdaq Capital Market could result in a de-listing of our common stock.

The Securities That May Be Offered

RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider carefully the risks discussed under the section captioned "Risk Factors" contained in our most recent annual report on Form 10-K/10-K/A and in our subsequent Quarterly Reports on Form 10-Q and our Current Reports on Form 8-K, as updated by our subsequent filings under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), each of which is incorporated by reference in this prospectus in its entirety, together with other information in this prospectus, and the information and documents incorporated by reference in this prospectus, and any free writing prospectus that we have authorized for use in connection with this offering before you make a decision to invest in our securities. If any of these events actually occur, our business, operating results, prospects or financial condition could be materially and adversely affected. This could cause the trading price of our common stock to decline and you may lose all or part of your investment.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Forward looking information relating to future events, future financial performance, strategies, expectations, competitive environment, regulation and availability of resources. Such forward-looking statements include those that express plans, anticipation, intent, contingency, goals, targets or future development and/or otherwise are not statements of historical fact. These forward-looking statements are based on our current expectations and projections about future events and they are subject to risks and uncertainties known and unknown that could cause actual results and developments to differ materially from those expressed or implied in such statements.

In some cases, you can identify forward-looking statements by terminology, such as “may,” “should,” “would,” “expect,” “intend,” “anticipate,” “believe,” “estimate,” “continue,” “plan,” “potential” and similar expressions. Accordingly, these statements involve estimates, assumptions and uncertainties that could cause actual results to differ materially from those expressed in them. Any forward-looking statements are qualified in their entirety by reference to the factors discussed throughout this prospectus.

You should read this prospectus and the documents we have filed as exhibits to the registration statement, of which this prospectus is part, completely and with the understanding that our actual future results may be materially different from what we expect. You should not assume that the information contained in this prospectus or any prospectus supplement is accurate as of any date other than the date on the front cover of those documents.

If we do update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

New factors emerge from time to time, and it is not possible for us to predict which factors will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. We qualify all of the information presented in this prospectus particularly our forward-looking statements, by these cautionary statements.

USE OF PROCEEDS

Unless otherwise set forth in the applicable prospectus supplement, we intend to use the net proceeds, if any, from the sales of securities offered by this prospectus for general corporate purposes, which may include, among other things, working capital. We may also use a portion of the net proceeds to invest in or acquire other businesses or products, although we have no commitments or agreements with respect to any such licenses, acquisitions or investments as of the date of this prospectus.

The amounts and timing of our actual expenditures will depend on numerous factors, including our expansion efforts in the United States, as well as the amount of cash used in our operations. We therefore cannot estimate with certainty the amount of net proceeds to be used for the purposes described above. We may find it necessary or advisable to use the net proceeds for other purposes, and we will have broad discretion in the application of the net proceeds. Pending the uses described above, we plan to invest the net proceeds from this offering in short-term, investment-grade, interest-bearing securities.

DIVIDEND POLICY

We have never declared nor paid any cash dividends on our common stock, and currently intend to retain all of our cash and any earnings for use in our business and, therefore, do not anticipate paying any cash dividends on our common stock in the foreseeable future. Any future determination to pay cash dividends on our common stock will be at the discretion of the Board of Directors and will be dependent upon our consolidated financial condition, results of operations, capital requirements and such other factors as the Board of Directors deems relevant.

DESCRIPTION OF OUR CAPITAL STOCK

Authorized Capital

Our authorized capital consists of 80,000,000 shares of common stock, par value \$0.0001 per share, and 5,000,000 shares of preferred stock, par value \$0.0001 per share. As of June 3, 2021, 22,011,109 shares of common stock were issued and outstanding, and no shares of preferred stock were issued and outstanding.

Description of Common Stock

Authorized Shares of Common Stock. We currently have authorized 80,000,000 shares of common stock. As of December 31, 2020, we had 20,029,834 issued and outstanding shares of common stock. As of June 3, 2021, we had 22,011,109 issued and outstanding shares of common stock.

Voting Rights. The holders of common stock are entitled to one vote per share on all matters to be voted upon by the stockholders.

Dividend Rights. Holders of common stock are entitled, subject to the rights, privileges, restrictions and conditions attaching to any other class of shares ranking in priority to the common stock, to receive any dividend declared by the Board of Directors.

Liquidation Rights. In the event of our voluntary or involuntary liquidation, the holders of common stock will be entitled to receive, after distribution in full of preferential amounts, if any, all the remaining assets available for distribution ratably in proportion to the number of shares of common stock held by them.

Other Rights and Preferences. The holders of our common stock have no redemption or conversion rights. The rights, preferences and privileges of holders of shares of common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future.

Fully Paid and Nonassessable. All of our issued and outstanding shares of common stock are fully paid and nonassessable.

Reverse Stock Split

As described in more detail below, on December 12, 2019, we effected a one-for-eight reverse stock split of our authorized, issued and outstanding shares of common stock (the "Reverse Stock Split").

On November 22, 2019, our Board of Directors approved the Reverse Stock Split of our authorized, issued and outstanding shares of common stock at a ratio of one (1) share of common stock for every eight (8) shares of common stock. On December 9, 2019, we filed a Certificate of Amendment to our Certificate of Incorporation with the Secretary of State of the State of Delaware to effectuate the Reverse Stock Split at the Effective Time (as defined below). The Reverse Stock Split was effective as of 12:01 a.m. (Eastern Time) on December 12, 2019 (the "Effective Time") and our common stock began trading on a post-split basis when the market opened for trading on December 12, 2019.

As a result of the Reverse Stock Split, each eight (8) pre-split shares of common stock outstanding were automatically combined into one (1) new share of common stock without any action on the part of the holders, and the number of outstanding shares of common stock on December 12, 2019 was reduced from 86,178,070 shares to 10,772,259 shares (subject to rounding of fractional shares).

Preferred Stock

Our Board of Directors has the authority, without further action by the stockholders, to issue up to 5,000,000 shares of preferred stock. On September 18, 2018, we filed an Amended and Restated Certificate of Incorporation (the “Amended and Restated Certificate of Incorporation”) with the Secretary of State of the State of Delaware. The Amended and Restated Certificate of Incorporation, among other things, specifies that the authority of the Board of Directors with respect to each series of preferred stock shall include, but not be limited to, determination of the following: (a) the number of shares constituting the series and the distinctive designation of the series; (b) the dividend rate (or the method of calculation of dividends) on the shares of the series, whether dividends will be cumulative, and if so, from which date or dates, and the relative rights of priority, if any, of payment of dividends on shares of the series; (c) whether the series shall have voting rights, in addition to the voting rights required by law, and if so, the terms of such voting rights; (d) whether the series shall have conversion rights, and, if so, the terms and conditions of such conversion, including provision for adjustment of the conversion rate in such events as the Board of Directors shall determine; (e) whether or not the shares of that series shall be redeemable or exchangeable, and, if so, the terms and conditions of such redemption or exchange, as the case may be, including the date or dates upon or after which they shall be redeemable or exchangeable, as the case may be, and the amount per share payable in case of redemption, which amount may vary under different conditions and at different redemption dates; (f) whether the series shall have a sinking fund for the redemption or purchase of shares of that series, and if so, the terms and amount of such sinking fund; (g) the rights of the shares of the series in the event of our voluntary or involuntary liquidation, dissolution or winding up, and the relative rights or priority, if any, of payment of shares of the series; and (h) any other relative rights, preferences, powers and limitations of that series.

Preferred stock could be issued quickly with terms calculated to delay or prevent a change of control or make removal of management more difficult. Additionally, the issuance of preferred stock may have the effect of decreasing the market price of our common stock and may adversely affect the voting and other rights of the holders of common stock.

We currently have no shares of preferred stock issued. At present, we have no plans to issue any shares of preferred stock following this offering.

Securities Authorized for Issuance under Equity Compensation Plans

In September 2018, our stockholders approved our 2018 Equity Incentive Plan, which initially provided for a maximum of 1,150,000 shares of common stock that may be issued as options, stock appreciation rights, restricted stock, stock units, other equity awards or cash awards. In November 2020, our stockholders approved an amendment to the 2018 Equity Incentive Plan (Amendment No. 1) to increase by 1,850,000 the number of shares that may be granted as awards under the 2018 Equity Incentive Plan. To date, options to purchase 974,938 shares of common stock have been granted under the 2018 Equity Incentive Plan.

The 2018 Plan is administered by our Board of Directors and permits the discretionary award of incentive stock options, nonstatutory stock options, restricted stock, restricted stock units (“RSUs”), stock appreciation rights, other equity awards and/or cash awards to selected participants. The 2018 Plan will remain in effect until the earlier of (i) August 2, 2028 and (ii) the date upon which the 2018 Plan is terminated pursuant to its terms, and in any event subject to the maximum share limit of the 2018 Plan.

The warrants provide for adjustment to the exercise price and number of shares of common stock issuable upon exercise of the warrant in the case of any stock split, stock dividend, recapitalization, reorganization, scheme, arrangement or otherwise).

The exercise price and number of shares of common stock issuable upon exercise of the Warrants may be adjusted in certain circumstances, including in the event of a stock dividend or recapitalization, reorganization, merger or consolidation. Exercisability. The Warrants are exercisable at any time after their original issuance and at any time up to the date that is five (5) years after their original issuance, subject to our call option described below. The Warrants may be exercised upon surrender of the warrant certificate on or prior to the expiration date at the offices of the Warrant Agent, with the exercise form on the reverse side of the warrant certificate completed and executed as indicated, accompanied by full payment of the exercise price, by certified or official bank check payable to us, for the number of Warrants being exercised. Under the terms of the Warrant, we must use our best efforts to maintain the effectiveness of the registration statement and current prospectus relating to common stock issuable upon exercise of the Warrants until the expiration of the Warrants. If we fail to maintain the effectiveness of the registration statement and current prospectus relating to the common stock issuable upon exercise of the Warrants, the holders of the Warrants shall have the right to exercise the Warrants solely via a cashless exercise feature provided for in the Warrants, until such time as there is an effective registration statement and current prospectus.

Exercise Limitation. A holder may not exercise any portion of a warrant to the extent that the holder, together with its affiliates and any other person or entity acting as a group, would own more than 4.99% of the outstanding common stock after exercise, as such percentage ownership is determined in accordance with the terms of the warrant, except that upon prior notice from the holder to us, the holder may elect to increase such limitation to a percentage not in excess of 9.99%.

Exercise Price. The exercise price per whole share of common stock purchasable upon exercise of the Warrants is \$2.50. The exercise price is subject to appropriate adjustment in the event of certain stock dividends and distributions, stock splits, stock combinations, reclassifications or similar events affecting our common stock.

Call Option. If there is a registration statement that covers the resale of the shares underlying the common Warrants or all of such shares may be sold pursuant to Rule 144 upon cashless exercise without restrictions, including volume restrictions, we have the option to “call” the exercise of any or all of the common Warrants, from time to time by giving a call notice to the holder only after any 10-consecutive trading day period during which the daily VWAP of the common stock is not less than 250% of the exercise price for the common Warrants in effect for such 10-consecutive trading day period and the average daily volume for such period exceeds 100,000 shares per trading day. During the call period, the holder may exercise the common warrant and purchase the called common stock underlying the common warrant. If the holder fails to timely exercise the common warrant or a number of shares of common stock equal to number of called shares of common stock during the call period, our sole remedy will be to cancel an amount of called shares of common stock underlying the common warrant equal to such shortfall, with the common warrant no longer being exercisable with respect to such shares of common stock. The call period is a period of 30 trading days following the date on which the call notice is deemed given and effective.

Fractional Shares. No fractional shares of common stock will be issued upon exercise of the Warrants. If, upon exercise of the warrant, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, pay a cash adjustment in respect of such fraction in an amount equal to such fraction multiplied by the exercise price. If multiple Warrants are exercised by the holder at the same time, we shall pay a cash adjustment in respect of such final fraction in an amount equal to such fraction multiplied by the exercise price.

Transferability. Subject to applicable laws, the Warrants may be offered for sale, sold, transferred or assigned without our consent.

Exchange Listing. There is no established trading market for the Warrants and we do not expect a market to develop. In addition, we do not intend to apply for the listing of the Warrants on any national securities exchange or other trading market. Without an active trading market, the liquidity of the Warrants will be limited.

Warrant Agent; Global Certificate. The Warrants were initially issued in registered form under a Warrant Agent Agreement between the Warrant Agent, Signature Stock Transfer, Inc., and us. The Warrants are represented only by one or more global warrants deposited with the Warrant Agent, as custodian on behalf of The Depository Trust Company (DTC) and registered in the name of Cede & Co., a nominee of DTC, or as otherwise directed by DTC.

Fundamental Transactions. In the event of a fundamental transaction, as described in the Warrants and generally including any reorganization, recapitalization or reclassification of our common stock, the sale, transfer or other disposition of all or substantially all of our properties or assets, our consolidation or merger with or into another person, the acquisition of more than 50% of our outstanding common stock, or any person or group becoming the beneficial owner of 50% of the voting power represented by our outstanding common stock, the holders of the Warrants will be entitled to receive the kind and amount of securities, cash or other property that the holders would have received had they exercised the Warrants immediately prior to such fundamental transaction.

Rights as a Stockholder. The warrant holders do not have the rights or privileges of holders of common stock or any voting rights until they exercise their Warrants and receive shares of common stock. After the issuance of shares of common stock upon exercise of the Warrants, each holder will be entitled to one vote for each share held of record on all matters to be voted on by stockholders.

Governing Law. The Warrants and the Warrant Agent Agreement are governed by the laws of the State of New York law.

Anti-Takeover Provisions of Delaware Law, our Certificate of Incorporation and our Bylaws

We are incorporated in the State of Delaware. As a result, we are governed by the provisions of Section 203 of the Delaware General Corporation Law. In general, Section 203 prohibits a public Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a period of three years after the date of the transaction in which the person became an interested stockholder, unless:

- the transaction was approved by the Board of Directors prior to the time that the stockholder became an interested stockholder;
- upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding shares owned by directors who are also officers of the corporation and shares owned by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or
- at or subsequent to the time the stockholder became an interested stockholder, the business combination was approved by the Board of Directors and authorized at an annual or special meeting of the stockholders, and not by written consent, by the affirmative vote of at least two-thirds of the outstanding voting stock which is not owned by the interested stockholder.

In general, Section 203 defines a “business combination” to include mergers, asset sales and other transactions resulting in financial benefit to a stockholder and an “interested stockholder” as a person who, together with affiliates and associates, owns, or within three years did own, 15% or more of the corporation's outstanding voting stock. These provisions may have the effect of delaying, deferring or preventing changes in control of our company.

Our Amended and Restated Certificate of Incorporation, as further amended, and our Bylaws include a number of provisions that could deter hostile takeovers or delay or prevent changes in control of our Board of Directors or management team, including the following:

(1) Potential Effects of Authorized but Unissued Stock

We have shares of common stock and preferred stock available for future issuance without stockholder approval. We may utilize these additional shares for a variety of corporate purposes, including securities public offerings and other financings to raise additional capital, to facilitate corporate acquisitions or payment as a dividend on the capital stock.

The existence of unissued and unreserved common stock and preferred stock may enable our Board of Directors to issue shares to persons friendly to current management or to issue preferred stock with terms that could render more difficult or discourage a third-party attempt to obtain control of us by means of a merger, tender offer, proxy contest or otherwise, thereby protecting the continuity of our management. In addition, the Board of Directors has the discretion to determine designations, rights, preferences, privileges and restrictions, including voting rights, dividend rights, conversion rights, redemption privileges and liquidation preferences of each series of preferred stock, all to the fullest extent permissible under the Delaware General Corporation Law and subject to any limitations set forth in our Certificate of Incorporation. The purpose of authorizing the Board of Directors to issue preferred stock and to determine the rights and preferences applicable to such preferred stock is to eliminate delays associated with a stockholder vote on specific issuances. The issuance of preferred stock, while providing desirable flexibility in connection with possible financings, acquisitions and other corporate purposes, could have the effect of making it more difficult for a third party to acquire, or could discourage a third party from acquiring, a majority of our outstanding voting stock.

(2) Limitations of Director Liability and Indemnification of Directors, Officers and Employees

Our Amended and Restated Certificate of Incorporation, as further amended, limits the liability of directors to the fullest extent permitted by Delaware General Corporation Law. Our Certificate of Incorporation provides that directors will not be personally liable for monetary damages for breach of their fiduciary duties as directors, except for liability for any:

- breach of their duty of loyalty to us or our stockholders;
- act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;
- unlawful payments of dividends or unlawful stock repurchases or redemptions as provided in Section 174 of the Delaware General Corporation Law; or
- transaction from which the directors derived an improper personal benefit.

Our Amended and Restated Certificate of Incorporation, as further amended, also provides that we will indemnify our directors and officers to the extent permitted by law, and may indemnify employees and other agents. Our Amended and Restated Certificate of Incorporation, as further amended, also provides that we may advance expenses incurred by a director or officer in advance of the final disposition of any action or proceeding.

We have also entered into separate indemnification agreements with certain of our directors and officers. These agreements, among other things, require us to indemnify such persons, to the fullest extent provided by law for any and all losses, claims, actions, proceedings, awards, judgments, fines, penalties, liabilities, damages, obligations, costs, charges, legal fees and disbursements and expenses, including without limitation, all amounts paid to settle any action or satisfy any judgment reasonably incurred by or on behalf of the director or officer in respect of any civil, criminal or administrative action or proceeding to which the director or officer is made a party (or any such proceeding which might be threatened in respect of which the director or officer is threatened to be made a party) by reason of such individual being or having been one of our directors or officers, or any of our subsidiaries, provided that such person follows the procedures for determining entitlement to indemnification and advancement of expenses set forth in the indemnification agreement. We believe that these provisions and indemnification agreements are necessary to attract and retain qualified persons as directors and officers.

The limitation of liability and indemnification provisions in our Certificate of Incorporation may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duties. They may also reduce the likelihood of derivative litigation against directors and officers, even though an action, if successful, might provide a benefit to us and our stockholders. Our results of operations and financial condition may be harmed to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions.

Insofar as indemnification for liabilities arising under the Securities Act, may be permitted to directors, officers or persons controlling us, we have been informed that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Board of Directors Vacancies

Our Bylaws authorize only our Board of Directors to fill vacant directorships, including newly created seats.

No Cumulative Voting. The Delaware General Corporation Law provides that stockholders are not entitled to cumulate votes in the election of directors unless a corporation's certificate of incorporation provides otherwise. Our Certificate of Incorporation does not provide for cumulative voting.

Choice of Forum

Our Amended and Restated Certificate of Incorporation, as further amended, provides that unless we consent in writing to the selection of an alternative forum, to the fullest extent permitted by law, all Internal Corporate Claims (as defined therein) shall be brought solely and exclusively in the Court of Chancery of the State of Delaware (or, if such court does not have jurisdiction, the Superior Court of the State of Delaware, or, if such other court does not have jurisdiction, the United States District Court for the District of Delaware).

A Delaware corporation is allowed to mandate in its corporate governance documents a chosen forum for the resolution of state law based shareholder class actions, derivative suits and other intra-corporate disputes.

This exclusive forum provision does not apply to suits brought to enforce any liability or duty created by the Securities Act or the Exchange Act or other federal securities laws for which there is exclusive federal or concurrent federal and state jurisdiction.

The Company's management believes limiting state law based claims to Delaware will provide the most appropriate outcomes as the risk of another forum misapplying Delaware law is avoided. Delaware courts have a well-developed body of case law and limiting the forum will preclude costly and duplicative litigation and avoids the risk of inconsistent outcomes. Additionally, Delaware Chancery Courts can typically resolve disputes on an accelerated schedule when compared to other forums.

While management believes limiting the forum for state law based claims is a benefit, shareholders could be inconvenienced by not being able to bring a state law based action in another forum they find favorable.

DESCRIPTION OF DEBT SECURITIES

We may issue debt securities from time to time, in one or more series, as either senior or subordinated debt or as senior or subordinated convertible debt. While the terms we have summarized below will apply generally to any debt securities that we may offer under this prospectus, we will describe the particular terms of any debt securities that we may offer in more detail in the applicable prospectus supplement. The terms of any debt securities offered under a prospectus supplement may differ from the terms described below. Unless the context requires otherwise, whenever we refer to the indenture, we also are referring to any supplemental indentures that specify the terms of a particular series of debt securities.

We will issue the debt securities under the indenture that we will enter into with the trustee named in the indenture. The indenture will be qualified under the Trust Indenture Act of 1939, as amended, or the Trust Indenture Act. We have filed the form of indenture as an exhibit to the registration statement of which this prospectus is a part, and supplemental indentures and forms of debt securities containing the terms of the debt securities being offered will be filed as exhibits to the registration statement of which this prospectus is a part or will be incorporated by reference from reports that we file with the SEC.

The following summary of material provisions of the debt securities and the indenture is subject to, and qualified in its entirety by reference to, all of the provisions of the indenture applicable to a particular series of debt securities. We urge you to read the applicable prospectus supplements and any related free writing prospectuses related to the debt securities that we may offer under this prospectus, as well as the complete indenture that contains the terms of the debt securities.

General

The indenture will not limit the amount of debt securities that we may issue. It provides that we may issue debt securities up to the principal amount that we may authorize and may be in any currency or currency unit that we may designate. Except for the limitations on consolidation, merger and sale of all or substantially all of our assets contained in the indenture, the terms of the indenture do not contain any covenants or other provisions designed to give holders of any debt securities protection against changes in our operations, financial condition or transactions involving us.

We may issue the debt securities issued under the indenture as “discount securities,” which means they may be sold at a discount below their stated principal amount. These debt securities, as well as other debt securities that are not issued at a discount, may be issued with “original issue discount,” or OID, for U.S. federal income tax purposes because of interest payment and other characteristics or terms of the debt securities. Material U.S. federal income tax considerations applicable to debt securities issued with OID will be described in more detail in any applicable prospectus supplement.

We will describe in the applicable prospectus supplement the terms of the series of debt securities being offered, including:

- the title of the series of debt securities;
- any limit upon the aggregate principal amount that may be issued;
- the maturity date or dates;
- the form of the debt securities of the series;
- the applicability of any guarantees;
- whether or not the debt securities will be secured or unsecured, and the terms of any secured debt;
- whether the debt securities rank as senior debt, senior subordinated debt, subordinated debt or any combination thereof, and the terms of any subordination;
- if the price (expressed as a percentage of the aggregate principal amount thereof) at which such debt securities will be issued is a price other than the principal amount thereof, the portion of the principal amount thereof payable upon declaration of acceleration of the maturity thereof, or if applicable, the portion of the principal amount of such debt securities that is convertible into another security or the method by which any such portion shall be determined;

- the interest rate or rates, which may be fixed or variable, or the method for determining the rate and the date interest will begin to accrue, the dates interest will be payable and the regular record dates for interest payment dates or the method for determining such dates;
- our right, if any, to defer payment of interest and the maximum length of any such deferral period;
- if applicable, the date or dates after which, or the period or periods during which, and the price or prices at which, we may, at our option, redeem the series of debt securities pursuant to any optional or provisional redemption provisions and the terms of those redemption provisions;
- the date or dates, if any, on which, and the price or prices at which we are obligated, pursuant to any mandatory sinking fund or analogous fund provisions or otherwise, to redeem, or at the holder's option to purchase, the series of debt securities and the currency or currency unit in which the debt securities are payable;
- the denominations in which we will issue the series of debt securities, if other than denominations of \$1,000 and any integral multiple thereof;
- any and all terms, if applicable, relating to any auction or remarketing of the debt securities of that series and any security for our obligations with respect to such debt securities and any other terms which may be advisable in connection with the marketing of debt securities of that series;
- whether the debt securities of the series shall be issued in whole or in part in the form of a global security or securities; the terms and conditions, if any, upon which such global security or securities may be exchanged in whole or in part for other individual securities; and the depositary for such global security or securities;
- if applicable, the provisions relating to conversion or exchange of any debt securities of the series and the terms and conditions upon which such debt securities will be so convertible or exchangeable, including the conversion or exchange price, as applicable, or how it will be calculated and may be adjusted, any mandatory or optional (at our option or the holders' option) conversion or exchange features, the applicable conversion or exchange period and the manner of settlement for any conversion or exchange;
- if other than the full principal amount thereof, the portion of the principal amount of debt securities of the series which shall be payable upon declaration of acceleration of the maturity thereof;
- additions to or changes in the covenants applicable to the particular debt securities being issued, including, among others, the consolidation, merger or sale covenant;
- additions to or changes in the events of default with respect to the securities and any change in the right of the trustee or the holders to declare the principal, premium, if any, and interest, if any, with respect to such securities to be due and payable;
- additions to or changes in or deletions of the provisions relating to covenant defeasance and legal defeasance;
- additions to or changes in the provisions relating to satisfaction and discharge of the indenture;
- additions to or changes in the provisions relating to the modification of the indenture both with and without the consent of holders of debt securities issued under the indenture;
- the currency of payment of debt securities if other than U.S. dollars and the manner of determining the equivalent amount in U.S. dollars;
- whether interest will be payable in cash or additional debt securities at our or the holders' option and the terms and conditions upon which the election may be made;
- the terms and conditions, if any, upon which we will pay amounts in addition to the stated interest, premium, if any and principal amounts of the debt securities of the series to any holder that is not a "United States person" for federal tax purposes;

- any restrictions on transfer, sale or assignment of the debt securities of the series; and
- any other specific terms, preferences, rights or limitations of, or restrictions on, the debt securities, any other additions or changes in the provisions of the indenture, and any terms that may be required by us or advisable under applicable laws or regulations.

Conversion or Exchange Rights

We will set forth in the prospectus supplement the terms on which a series of debt securities may be convertible into or exchangeable for our common stock or our other securities. We will include provisions as to settlement upon conversion or exchange and whether conversion or exchange is mandatory, at the option of the holder or at our option. We may include provisions pursuant to which the number of shares of our common stock or our other securities that the holders of the series of debt securities receive would be subject to adjustment.

Consolidation, Merger or Sale

Unless we provide otherwise in the prospectus supplement applicable to a particular series of debt securities, the indenture will not contain any covenant that restricts our ability to merge or consolidate, or sell, convey, transfer or otherwise dispose of our assets as an entirety or substantially as an entirety. However, any successor to or acquirer of such assets (other than a subsidiary of ours) must assume all of our obligations under the indenture or the debt securities, as appropriate.

Events of Default under the Indenture

Unless we provide otherwise in the prospectus supplement applicable to a particular series of debt securities, the following are events of default under the indenture with respect to any series of debt securities that we may issue:

- if we fail to pay any installment of interest on any series of debt securities, as and when the same shall become due and payable, and such default continues for a period of 90 days; provided, however, that a valid extension of an interest payment period by us in accordance with the terms of any indenture supplemental thereto shall not constitute a default in the payment of interest for this purpose;
- if we fail to pay the principal of, or premium, if any, on any series of debt securities as and when the same shall become due and payable whether at maturity, upon redemption, by declaration or otherwise, or in any payment required by any sinking or analogous fund established with respect to such series; provided, however, that a valid extension of the maturity of such debt securities in accordance with the terms of any indenture supplemental thereto shall not constitute a default in the payment of principal or premium, if any;
- if we fail to observe or perform any other covenant or agreement contained in the debt securities or the indenture, other than a covenant specifically relating to another series of debt securities, and our failure continues for 90 days after we receive written notice of such failure, requiring the same to be remedied and stating that such is a notice of default thereunder, from the trustee or holders of at least 25% in aggregate principal amount of the outstanding debt securities of the applicable series; and
- if specified events of bankruptcy, insolvency or reorganization occur.

If an event of default with respect to debt securities of any series occurs and is continuing, other than an event of default specified in the last bullet point above, the trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series, by notice to us in writing, and to the trustee if notice is given by such holders, may declare the unpaid principal of, premium, if any, and accrued interest, if any, due and payable immediately. If an event of default specified in the last bullet point above occurs with respect to us, the principal amount of and accrued interest, if any, of each issue of debt securities then outstanding shall be due and payable without any notice or other action on the part of the trustee or any holder.

The holders of a majority in principal amount of the outstanding debt securities of an affected series may waive any default or event of default with respect to the series and its consequences, except defaults or events of default regarding payment of principal, premium, if any, or interest, unless we have cured the default or event of default in accordance with the indenture. Any waiver shall cure the default or event of default.

Subject to the terms of the indenture, if an event of default under an indenture shall occur and be continuing, the trustee will be under no obligation to exercise any of its rights or powers under such indenture at the request or direction of any of the holders of the applicable series of debt securities, unless such holders have offered the trustee reasonable indemnity. The holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee, with respect to the debt securities of that series, provided that:

- the direction so given by the holder is not in conflict with any law or the applicable indenture; and
- subject to its duties under the Trust Indenture Act, the trustee need not take any action that might involve it in personal liability or might be unduly prejudicial to the holders not involved in the proceeding.

A holder of the debt securities of any series will have the right to institute a proceeding under the indenture or to appoint a receiver or trustee, or to seek other remedies only if:

- the holder has given written notice to the trustee of a continuing event of default with respect to that series;
- the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series have made written request;
- such holders have offered to the trustee indemnity satisfactory to it against the costs, expenses and liabilities to be incurred by the trustee in compliance with the request; and
- the trustee does not institute the proceeding, and does not receive from the holders of a majority in aggregate principal amount of the outstanding debt securities of that series other conflicting directions within 90 days after the notice, request and offer.

These limitations do not apply to a suit instituted by a holder of debt securities if we default in the payment of the principal, premium, if any, or interest on, the debt securities.

We will periodically file statements with the trustee regarding our compliance with specified covenants in the indenture.

Modification of Indenture; Waiver

We and the trustee may change an indenture without the consent of any holders with respect to specific matters:

- to cure any ambiguity, defect or inconsistency in the indenture or in the debt securities of any series;
- to comply with the provisions described above under “Description of Debt Securities—Consolidation, Merger or Sale;”
- to provide for uncertificated debt securities in addition to or in place of certificated debt securities;
- to add to our covenants, restrictions, conditions or provisions such new covenants, restrictions, conditions or provisions for the benefit of the holders of all or any series of debt securities, to make the occurrence, or the occurrence and the continuance, of a default in any such additional covenants, restrictions, conditions or provisions an event of default or to surrender any right or power conferred upon us in the indenture;
- to add to, delete from or revise the conditions, limitations, and restrictions on the authorized amount, terms, or purposes of issue, authentication and delivery of debt securities, as set forth in the indenture;
- to make any change that does not adversely affect the interests of any holder of debt securities of any series in any material respect;
- to provide for the issuance of and establish the form and terms and conditions of the debt securities of any series as provided above under “Description of Debt Securities—General” to establish the form of any certifications required to be furnished pursuant to the terms of the indenture or any series of debt securities, or to add to the rights of the holders of any series of debt securities;

- to evidence and provide for the acceptance of appointment under any indenture by a successor trustee; or
- to comply with any requirements of the SEC in connection with the qualification of any indenture under the Trust Indenture Act.

In addition, under the indenture, the rights of holders of a series of debt securities may be changed by us and the trustee with the written consent of the holders of at least a majority in aggregate principal amount of the outstanding debt securities of each series that is affected. However, unless we provide otherwise in the prospectus supplement applicable to a particular series of debt securities, we and the trustee may make the following changes only with the consent of each holder of any outstanding debt securities affected:

- extending the fixed maturity of any debt securities of any series;
- reducing the principal amount, reducing the rate of or extending the time of payment of interest, or reducing any premium payable upon the redemption of any series of any debt securities; or
- reducing the percentage of debt securities, the holders of which are required to consent to any amendment, supplement, modification or waiver.

Discharge

Each indenture provides that we can elect to be discharged from our obligations with respect to one or more series of debt securities, except for specified obligations, including obligations to:

- provide for payment;
- register the transfer or exchange of debt securities of the series;
- replace stolen, lost or mutilated debt securities of the series;
- pay principal of and premium and interest on any debt securities of the series;
- maintain paying agencies;
- hold monies for payment in trust;
- recover excess money held by the trustee;
- compensate and indemnify the trustee; and
- appoint any successor trustee.

In order to exercise our rights to be discharged, we must deposit with the trustee money or government obligations sufficient to pay all the principal of, any premium, if any, and interest on, the debt securities of the series on the dates payments are due.

Form, Exchange and Transfer

We will issue the debt securities of each series only in fully registered form without coupons and, unless we provide otherwise in the applicable prospectus supplement, in denominations of \$1,000 and any integral multiple thereof. The indenture provides that we may issue debt securities of a series in temporary or permanent global form and as book-entry securities that will be deposited with, or on behalf of, The Depository Trust Company, or DTC, or another depository named by us and identified in a prospectus supplement with respect to that series. To the extent the debt securities of a series are issued in global form and as book-entry, a description of terms relating such securities will be set forth in the applicable prospectus supplement.

At the option of the holder, subject to the terms of the indenture and the limitations applicable to global securities described in the applicable prospectus supplement, the holder of the debt securities of any series can exchange the debt securities for other debt securities of the same series, in any authorized denomination and of like tenor and aggregate principal amount.

Subject to the terms of the indenture and the limitations applicable to global securities set forth in the applicable prospectus supplement, holders of the debt securities may present the debt securities for exchange or for registration of transfer, duly endorsed or with the form of transfer endorsed thereon duly executed if so required by us or the security registrar, at the office of the security registrar or at the office of any transfer agent designated by us for this purpose. Unless otherwise provided in the debt securities that the holder presents for transfer or exchange, we will impose no service charge for any registration of transfer or exchange, but we may require payment of any taxes or other governmental charges.

We will name in the applicable prospectus supplement the security registrar, and any transfer agent in addition to the security registrar, that we initially designate for any debt securities. We may at any time designate additional transfer agents or rescind the designation of any transfer agent or approve a change in the office through which any transfer agent acts, except that we will be required to maintain a transfer agent in each place of payment for the debt securities of each series.

If we elect to redeem the debt securities of any series, we will not be required to:

- issue, register the transfer of, or exchange any debt securities of that series during a period beginning at the opening of business 15 days before the day of mailing of a notice of redemption of any debt securities that may be selected for redemption and ending at the close of business on the day of the mailing; or
- register the transfer of or exchange any debt securities so selected for redemption, in whole or in part, except the unredeemed portion of any debt securities we are redeeming in part.

Information Concerning the Trustee

The trustee, other than during the occurrence and continuance of an event of default under an indenture, undertakes to perform only those duties as are specifically set forth in the applicable indenture. Upon an event of default under an indenture, the trustee must use the same degree of care as a prudent person would exercise or use in the conduct of his or her own affairs. Subject to this provision, the trustee is under no obligation to exercise any of the powers given it by the indenture at the request of any holder of debt securities unless it is offered reasonable security and indemnity against the costs, expenses and liabilities that it might incur.

Payment and Paying Agents

Unless we otherwise indicate in the applicable prospectus supplement, we will make payment of the interest on any debt securities on any interest payment date to the person in whose name the debt securities, or one or more predecessor securities, are registered at the close of business on the regular record date for the interest.

We will pay principal of and any premium and interest on the debt securities of a particular series at the office of the paying agents designated by us, except that unless we otherwise indicate in the applicable prospectus supplement, we will make interest payments by check that we will mail to the holder or by wire transfer to certain holders. Unless we otherwise indicate in the applicable prospectus supplement, we will designate the corporate trust office of the trustee as our sole paying agent for payments with respect to debt securities of each series. We will name in the applicable prospectus supplement any other paying agents that we initially designate for the debt securities of a particular series. We will maintain a paying agent in each place of payment for the debt securities of a particular series.

All money we pay to a paying agent or the trustee for the payment of the principal of or any premium or interest on any debt securities that remains unclaimed at the end of two years after such principal, premium or interest has become due and payable will be repaid to us, and the holder of the debt security thereafter may look only to us for payment thereof.

Governing Law

The indenture and the debt securities will be governed by and construed in accordance with the internal laws of the State of New York, except to the extent that the Trust Indenture Act is applicable.

DESCRIPTION OF WARRANTS

Warrants

We may issue warrants for the purchase of common stock, preferred stock or debt securities. We may issue warrants independently or in combination with other securities. In this prospectus, we have summarized certain general features of the warrants. We urge you, however, to read the applicable prospectus supplement (and any related free writing prospectus that we may authorize to be provided to you) related to the particular series of warrants being offered, as well as any warrant agreements and warrant certificates that contain the terms of the warrants. We will file as exhibits to the registration statement of which this prospectus is a part, or will incorporate by reference from reports that we file with the SEC, the form of warrant and/or the warrant agreement and warrant certificate, as applicable, that contain the terms of the particular series of warrants we are offering, and any supplemental agreements, before the issuance of such warrants.

Any warrants issued under this prospectus may be evidenced by warrant certificates. Warrants also may be issued under an applicable warrant agreement that we enter into with a warrant agent. We will indicate the name and address of the warrant agent, if applicable, in the prospectus supplement relating to the particular series of warrants being offered.

The following description, together with the additional information that we include in any applicable prospectus supplement and in any related free writing prospectus that we may authorize to be distributed to you, summarizes the material terms and provisions of the warrants that we may offer under this prospectus, which may be issued in one or more series. While the terms we have summarized below will apply generally to any warrants that we may offer under this prospectus, we will describe the particular terms of any series of warrants in more detail in the applicable prospectus supplement and in any related free writing prospectus that we may authorize to be distributed to you. The following description of warrants will apply to the warrants offered by this prospectus unless we provide otherwise in the applicable prospectus supplement. The applicable prospectus supplement for a particular series of warrants may specify different or additional terms.

The summary below and that contained in any prospectus supplement is qualified in its entirety by reference to all of the provisions of the warrant and/or the warrant agreement and warrant certificate, as applicable, applicable to a particular series of securities. We urge you to read the applicable prospectus supplements and any related free writing prospectuses related to the warrants that we may offer under this prospectus, as well as the complete warrant and/or the warrant agreement and warrant certificate, as applicable, that contains the terms of the warrants.

General

We will describe in the applicable prospectus supplement the terms of the series of warrants being offered, including:

- the offering price and aggregate number of warrants offered;
- the currency for which the warrants may be purchased;
- if applicable, the number of warrants issued with each such security;
- the number of shares of common stock, as the case may be, purchasable upon the exercise of one warrant and the price at which these shares may be purchased upon such exercise;
- the effect of any merger, consolidation, sale or other disposition of our business on the warrant agreements and the warrants;
- the terms of any rights to redeem or call the warrants;
- any provisions for changes to or adjustments in the exercise price or number of securities issuable upon exercise of the warrants;
- the dates on which the right to exercise the warrants will commence and expire;

- the manner in which the warrant agreements and warrants may be modified;
- a discussion of any material or special U.S. federal income tax considerations of holding or exercising the warrants;
- the terms of the securities issuable upon exercise of the warrants; and
- any other specific terms, preferences, rights or limitations of or restrictions on the warrants.

Before exercising their warrants, holders of warrants will not have any of the rights of holders of the securities purchasable upon such exercise, including the right to receive dividends, if any, or payments upon our liquidation, dissolution or winding up or to exercise voting rights, if any.

Exercise of Warrants

Each warrant will entitle the holder to purchase the securities that we specify in the applicable prospectus supplement at the exercise price that we describe in the applicable prospectus supplement. The warrants may be exercised as set forth in the prospectus supplement relating to the warrants offered. Unless we otherwise specify in the applicable prospectus supplement, warrants may be exercised at any time up to the close of business on the expiration date set forth in the prospectus supplement relating to the warrants offered thereby. After the close of business on the expiration date, unexercised warrants will become void.

Upon receipt of payment and the warrant or warrant certificate, as applicable, properly completed and duly executed at the corporate trust office of the warrant agent, if any, or any other office, including ours, indicated in the prospectus supplement, we will, as soon as practicable, issue and deliver the securities purchasable upon such exercise. If less than all of the warrants (or the warrants represented by such warrant certificate) are exercised, a new warrant or a new warrant certificate, as applicable, will be issued for the remaining warrants.

Enforceability of Rights by Holders of Warrants

Each warrant agent, if any, will act solely as our agent under the applicable warrant agreement and will not assume any obligation or relationship of agency or trust with any holder of any warrant. A warrant agent may act as warrant agent for more than one issue of warrants. A warrant agent will have no duty or responsibility in case of any default by us under the applicable warrant agreement or warrant, including any duty or responsibility to initiate any proceedings at law or otherwise, or to make any demand upon us. Any holder of a warrant may, without the consent of the related warrant agent or the holder of any other warrant, enforce by appropriate legal action its right to exercise, and receive the securities purchasable upon exercise of, its warrants.

Governing Law

Unless we otherwise specify in the applicable prospectus supplement, the warrants and any warrant agreements will be governed by and construed in accordance with the laws of the State of New York.

DESCRIPTION OF UNITS

Units

We may issue units consisting of any combination of our common stock, preferred stock, debt securities, and warrants. We will issue each unit so that the holder of the unit is also the holder of each security included in the unit. As a result, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or at any time before a specified date.

The summary below and that contained in any prospectus supplement is qualified in its entirety by reference to all of the provisions of the unit agreement and/or unit certificate, and depositary arrangements, if applicable. We urge you to read the applicable prospectus supplements and any related free writing prospectuses related to the units that we may offer under this prospectus, as well as the complete unit agreement and/or unit certificate, and depositary arrangements, as applicable, that contain the terms of the units.

We will file as exhibits to the registration statement of which this prospectus is a part, or will incorporate by reference from reports that we file with the SEC, the form of unit agreement and/or unit certificate, and depositary arrangements, as applicable, that contain the terms of the particular series of units we are offering, and any supplemental agreements, before the issuance of such units.

The applicable prospectus supplement, information incorporated by reference or free writing prospectus may describe:

- the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;
- any provisions for the issuance, payment, settlement, transfer, or exchange of the units or of the securities composing the units;
- whether the units will be issued in fully registered or global form; and
- any other terms of the units.

The applicable provisions described in this section, as well as those described under “Description of Capital Stock,” “Description of Debt Securities” and “Description of Warrants” above, will apply to each unit and to each security included in each unit, respectively.

LEGAL OWNERSHIP OF SECURITIES

We can issue securities in registered form or in the form of one or more global securities. We describe global securities in greater detail below. We refer to those persons who have securities registered in their own names on the books that we or any applicable trustee or depository maintain for this purpose as the “holders” of those securities. These persons are the legal holders of the securities. We refer to those persons who, indirectly through others, own beneficial interests in securities that are not registered in their own names, as “indirect holders” of those securities. As we discuss below, indirect holders are not legal holders, and investors in securities issued in book-entry form or in street name will be indirect holders.

Book-Entry Holders

We may issue securities in book-entry form only, as we will specify in the applicable prospectus supplement. This means securities may be represented by one or more global securities registered in the name of a financial institution that holds them as depository on behalf of other financial institutions that participate in the depository’s book-entry system. These participating institutions, which are referred to as participants, in turn, hold beneficial interests in the securities on behalf of themselves or their customers.

Only the person in whose name a security is registered is recognized as the holder of that security. Global securities will be registered in the name of the depository or its participants. Consequently, for global securities, we will recognize only the depository as the holder of the securities, and we will make all payments on the securities to the depository. The depository passes along the payments it receives to its participants, which in turn pass the payments along to their customers who are the beneficial owners. The depository and its participants do so under agreements they have made with one another or with their customers; they are not obligated to do so under the terms of the securities.

As a result, investors in a global security will not own securities directly. Instead, they will own beneficial interests in a global security, through a bank, broker or other financial institution that participates in the depository’s book-entry system or holds an interest through a participant. As long as the securities are issued in global form, investors will be indirect holders, and not legal holders, of the securities.

Street Name Holders

We may terminate a global security or issue securities that are not issued in global form. In these cases, investors may choose to hold their securities in their own names or in “street name.” Securities held by an investor in street name would be registered in the name of a bank, broker or other financial institution that the investor chooses, and the investor would hold only a beneficial interest in those securities through an account he or she maintains at that institution.

For securities held in street name, we or any applicable trustee or depository will recognize only the intermediary banks, brokers and other financial institutions in whose names the securities are registered as the holders of those securities, and we or any such trustee or depository will make all payments on those securities to them. These institutions pass along the payments they receive to their customers who are the beneficial owners, but only because they agree to do so in their customer agreements or because they are legally required to do so. Investors who hold securities in street name will be indirect holders, not holders, of those securities.

Legal Holders

Our obligations, as well as the obligations of any applicable trustee or third party employed by us or a trustee, run only to the legal holders of the securities. We do not have obligations to investors who hold beneficial interests in global securities, in street name or by any other indirect means. This will be the case whether an investor chooses to be an indirect holder of a security or has no choice because we are issuing the securities only in global form.

For example, once we make a payment or give a notice to the holder, we have no further responsibility for the payment or notice even if that holder is required, under agreements with its participants or customers or by law, to pass it along to the indirect holders but does not do so. Similarly, we may want to obtain the approval of the holders to amend an indenture, to relieve us of the consequences of a default or of our obligation to comply with a particular provision of an indenture, or for other purposes. In such an event, we would seek approval only from the holders, and not the indirect holders, of the securities. Whether and how the legal holders contact the indirect holders is up to the legal holders.

Special Considerations for Indirect Holders

If you hold securities through a bank, broker or other financial institution, either in book-entry form because the securities are represented by one or more global securities or in street name, you should check with your own institution to find out:

- how it handles securities payments and notices;
- whether it imposes fees or charges;
- how it would handle a request for the holders' consent, if ever required;
- whether and how you can instruct it to send you securities registered in your own name so you can be a holder, if that is permitted in the future;
- how it would exercise rights under the securities if there were a default or other event triggering the need for holders to act to protect their interests; and
- if the securities are in book-entry form, how the depositary's rules and procedures will affect these matters.

Global Securities

A global security is a security that represents one or any other number of individual securities held by a depositary. Generally, all securities represented by the same global securities will have the same terms.

Each security issued in book-entry form will be represented by a global security that we issue to, deposit with and register in the name of a financial institution or its nominee that we select. The financial institution that we select for this purpose is called the depositary. Unless we specify otherwise in the applicable prospectus supplement, The Depository Trust Company, New York, New York, known as DTC, will be the depositary for all securities issued in book-entry form.

A global security may not be transferred to or registered in the name of anyone other than the depositary, its nominee or a successor depositary, unless special termination situations arise. We describe those situations below under "—Special Situations When a Global Security Will Be Terminated." As a result of these arrangements, the depositary, or its nominee, will be the sole registered owner and legal holder of all securities represented by a global security, and investors will be permitted to own only beneficial interests in a global security. Beneficial interests must be held by means of an account with a broker, bank or other financial institution that in turn has an account with the depositary or with another institution that does. Thus, an investor whose security is represented by a global security will not be a legal holder of the security, but only an indirect holder of a beneficial interest in the global security.

If the prospectus supplement for a particular security indicates that the security will be issued as a global security, then the security will be represented by a global security at all times unless and until the global security is terminated. If termination occurs, we may issue the securities through another book-entry clearing system or decide that the securities may no longer be held through any book-entry clearing system.

Special Considerations for Global Securities

As an indirect holder, an investor's rights relating to a global security will be governed by the account rules of the investor's financial institution and of the depositary, as well as general laws relating to securities transfers. We do not recognize an indirect holder as a holder of securities and instead deal only with the depositary that holds the global security.

If securities are issued only as global securities, an investor should be aware of the following:

- an investor cannot cause the securities to be registered in his or her name, and cannot obtain non-global certificates for his or her interest in the securities, except in the special situations we describe below;
- an investor will be an indirect holder and must look to his or her own bank or broker for payments on the securities and protection of his or her legal rights relating to the securities, as we describe above;

- an investor may not be able to sell interests in the securities to some insurance companies and to other institutions that are required by law to own their securities in non-book-entry form;
- an investor may not be able to pledge his or her interest in the global security in circumstances where certificates representing the securities must be delivered to the lender or other beneficiary of the pledge in order for the pledge to be effective;
- the depositary's policies, which may change from time to time, will govern payments, transfers, exchanges and other matters relating to an investor's interest in the global security;
- we and any applicable trustee have no responsibility for any aspect of the depositary's actions or for its records of ownership interests in the global security, nor will we or any applicable trustee supervise the depositary in any way;
- the depositary may, and we understand that DTC will, require that those who purchase and sell interests in the global security within its book-entry system use immediately available funds, and your broker or bank may require you to do so as well; and
- financial institutions that participate in the depositary's book-entry system, and through which an investor holds its interest in the global security, may also have their own policies affecting payments, notices and other matters relating to the securities.

There may be more than one financial intermediary in the chain of ownership for an investor. We do not monitor and are not responsible for the actions of any of those intermediaries.

Special Situations When a Global Security Will Be Terminated

In a few special situations described below, a global security will terminate and interests in it will be exchanged for physical certificates representing those interests. After that exchange, the choice of whether to hold securities directly or in street name will be up to the investor. Investors must consult their own banks or brokers to find out how to have their interests in securities transferred to their own names, so that they will be direct holders. We have described the rights of holders and street name investors above.

A global security will terminate when the following special situations occur:

- if the depositary notifies us that it is unwilling, unable or no longer qualified to continue as depositary for that global security and we do not appoint another institution to act as depositary within 90 days;
- if we notify any applicable trustee that we wish to terminate that global security; or
- if an event of default has occurred with regard to securities represented by that global security and has not been cured or waived.

The applicable prospectus supplement may also list additional situations for terminating a global security that would apply only to the particular series of securities covered by the prospectus supplement. When a global security terminates, the depositary, and neither we nor any applicable trustee, is responsible for deciding the names of the institutions that will be the initial direct holders.

PLAN OF DISTRIBUTION

We may sell the securities from time to time pursuant to underwritten public offerings, negotiated transactions, block trades or a combination of these methods. We may sell the securities to or through underwriters or dealers, through agents, or directly to one or more purchasers. We may distribute securities from time to time in one or more transactions:

- at a fixed price or prices which may be changed;
- at market prices prevailing at the time of sale;
- at prices related to such prevailing market prices; or
- at negotiated prices.

We may also sell equity securities covered by this registration statement in an “at the market” offering as defined in Rule 415(a)(4) under the Securities Act. Such offering may be made into an existing trading market for such securities in transactions at other than a fixed price on or through the facilities of the Nasdaq Capital Market or any other securities exchange or quotation or trading service on which such securities may be listed, quoted or traded at the time of sale.

Such at the market offerings, if any, may be conducted by underwriters acting as principal or agent.

A prospectus supplement or supplements (and any related free writing prospectus that we may authorize to be provided to you) will describe the terms of the offering of the securities, including, to the extent applicable:

- the name or names of any underwriters, dealers or agents, if any;
- the purchase price of the securities and the proceeds we will receive from the sale;
- any over-allotment options under which underwriters may purchase additional securities from us;
- any agency fees or underwriting discounts and other items constituting agents’ or underwriters’ compensation;
- any public offering price;
- any discounts or concessions allowed or reallocated or paid to dealers; and
- any securities exchange or market on which the securities may be listed.

Only underwriters named in the prospectus supplement are underwriters of the securities offered by the prospectus supplement.

If underwriters are used in the sale, they will acquire the securities for their own account and may resell the securities from time to time in one or more transactions at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase the securities will be subject to the conditions set forth in the applicable underwriting agreement. We may offer the securities to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. Subject to certain conditions, the underwriters will be obligated to purchase all of the securities offered by the prospectus supplement. Any public offering price and any discounts or concessions allowed or reallocated or paid to dealers may change from time to time. We may use underwriters with whom we have a material relationship. We will describe in the prospectus supplement, naming the underwriter, the nature of any such relationship.

We may sell securities directly or through agents we designate from time to time. We will name any agent involved in the offering and sale of securities, and we will describe any commissions we will pay the agent in the prospectus supplement. Unless the prospectus supplement states otherwise, our agent will act on a best-efforts basis for the period of its appointment.

We may authorize agents or underwriters to solicit offers by certain types of institutional investors to purchase securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. We will describe the conditions to these contracts and the commissions we must pay for solicitation of these contracts in the prospectus supplement.

We may provide agents and underwriters with indemnification against civil liabilities related to this offering, including liabilities under the Securities Act, or contribution with respect to payments that the agents or underwriters may make with respect to these liabilities. Agents and underwriters may engage in transactions with, or perform services for, us in the ordinary course of business.

All securities we offer, other than common stock, will be new issues of securities with no established trading market. Any underwriters may make a market in these securities, but will not be obligated to do so and may discontinue any market making at any time without notice. We cannot guarantee the liquidity of the trading markets for any securities.

Any underwriter may engage in overallotment, stabilizing transactions, short covering transactions and penalty bids. Overallotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a stabilizing or covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time. These transactions may be effected on any exchange or over-the-counter market or otherwise.

Any underwriters who are qualified market makers on the Nasdaq Capital Market may engage in passive market making transactions in the securities on the Nasdaq Capital Market in accordance with Rule 103 of Regulation M, during the business day prior to the pricing of the offering, before the commencement of offers or sales of the securities. Passive market makers must comply with applicable volume and price limitations and must be identified as passive market makers. In general, a passive market maker must display its bid at a price not in excess of the highest independent bid for such security; if all independent bids are lowered below the passive market maker's bid, however, the passive market maker's bid must then be lowered when certain purchase limits are exceeded. Passive market making may stabilize the market price of the securities at a level above that which might otherwise prevail in the open market and, if commenced, may be discontinued at anytime.

LEGAL MATTERS

Unless otherwise indicated in the applicable prospectus supplement, the validity of the securities offered by this prospectus, and any supplement thereto, will be passed upon for us by Gracin & Marlow, LLP, New York, New York. Additional legal matters may be passed upon for us or any underwriters, dealers or agents, by counsel that we will name in the applicable prospectus supplement.
